 Smart Home but text and photos are in color for a better reading experience The idea of a smart home includes a wide  
 variety of emerging technologies Examples include voice controlled digital assistants robots smart thermostats and blinds

 necessarily on my terms I had to learn how to interact with my digital assistants That journey is still unfolding and I expect  
 my smart home to keep expanding and improving as more things are added This book started simply as the notes that my  
 wife kept during our recent personal experiences with selecting and setting up smart home devices after we built a new  
 house While whole home solutions like HomeSeer or SmartThings are available in the market we selected what we felt was  
 the best product for each task and made sure they would all integrate with our existing home In the interest of full disclosure
