Stewart,Patricia O'Connell,2016-11-29 In this pioneering guide two business authorities introduce the new discipline of Service Design and reveal why trying new strategies for pleasing customers isn t enough to differentiate your business it needs to be designed for service from the ground up Woo Wow and Win reveals the importance of designing your company around service and offers clear practical strategies based on the idea that the design

of services is markedly different than manufacturing. Bestselling authors and business experts Thomas A Stewart and Patricia O Connell contend that most companies both digital and brick and mortar B2B or B2C are not designed for service to provide an experience that matches a customer's expectations with every interaction and serves the company's needs. When customers have more choices than ever before, study after study reveals that it's the experience that makes the difference. To provide great experiences that keep customers coming back, businesses must design their services with as much care as their products. Service Design is proactive; it is about delivering on your promise to customers in accordance with your strategy, not about acceding to customer dictates. Woo Wow and Win teaches you how to create Ahhh moments when the customer makes a positive judgment and to avoid Ow moments when you lose a sale or worse, customer trust. Whether you're giving a haircut, selling life insurance, or managing an office building, your customer is as much a part of your business as your employees are. Together you and customers create a bank of trust fueled by knowledge of each other's skills and preferences. This is Customer Capital, the authors explain, and it is jointly owned. But it's up to you to manage it profitably. Innovative yet grounded in real world examples, Woo Wow and Win is the key strategy for winning customers and keeping them. Basic Knowledge on FinTech TABF Editorial Board, Hank C.C Huang, 2020-04-01. As the field of FinTech continues its progress, financial institutions must not only enhance their digitization but also make serious efforts to understand the resulting new opportunities it creates. In line with these developments, TABF has published the book Basic knowledge on FinTech which was designed by us as a reference for the FinTech Knowledge Test. Co-authored by TABF staff and other experts, it features balanced and credible analysis, avoiding trivia and overly complex concepts while emphasizing readability. The content structure is based on the World Economic Forum (WEF)'s roadmap for FinTech development, adding in TABF's research findings plus other domestic and international trends and practices. Not only is Basic knowledge on FinTech suitable for financial proficiency testing, but it can also be used as a textbook in university courses supplementing theoretical knowledge with up-to-date practical knowledge in this rapidly changing field.

Global Perspectives on Literary Tourism and Film-Induced Tourism Baleiro, Rita, Pereira, Rosária, 2021-12-10. At the end of the 20th century, the traditional forms of tourism transformed; they expanded by the introduction of new postmodern tourist forms bringing innovative offers to the marketplace. Two of these new fast-growing forms are literary tourism and film-induced tourism, both of which fall under the umbrella of cultural tourism. Both niches of cultural tourism share the need to create products and experiences that meet the tourists' expectations. Global Perspectives on Literary Tourism and Film Induced Tourism discusses literary tourism and film-induced tourism and documents the advances in research on the intersections of literature, film, and the act of traveling. Covering a wide range of topics from film tourism destinations to digital literary tourism, this book is ideal for travel agents, tourism agencies, tour operators, government officials, postgraduate students, researchers, academicians, cultural development councils, and associations, and policymakers.

Data-Centric Business and Applications Natalia Kryvinska, Michal

Greguš,2019-07-16 This book explores various aspects of data engineering and information processing In this second volume the authors assess the challenges and opportunities involved in doing business with information Their contributions on business information processing and management reflect diverse viewpoints not only technological but also business and social As the global marketplace grows more and more complex due to the increasing availability of data the information business is steadily gaining popularity and has a huge impact on modern society Thus there is a growing need for consensus on how business information can be created accessed used and managed Delusive Speech in the Sharing Economy Julie Reid,2025-03-04 In this examination of how the rise of online sharing economy platforms has facilitated online crime this book shows how while marketed as trustworthy peer to peer services these platforms are highly vulnerable to misuse by scammers and are used for the dissemination of delusive speech The analysis centres around the concept of delusive speech a sub set of disinformation designed to deceive and motivate by criminal intent Looking beyond the economic and disruptive impacts of sharing economy platforms like Uber Airbnb and others this book situates these Big Tech giants as mass communication channels that are frequently misused by bad actors to distribute dangerous content globally Drawing from over 600 cases of victims lured into scams or physical danger via misleading Airbnb listings the book provides a detailed case study exposing Airbnb s failure to establish legitimate safety measures despite branding its platform as a community of trust Incorporating netnography and thematic analysis the author theorises the deceptive semiotic structure of delusive speech and evaluates practical mechanisms Airbnb could employ to prevent scams and crime on its platform With a global audience including researchers in communication and media studies digital media and media industries as well as tech journalists Silicon Valley critics policymakers and digital rights advocates this book unmasks how sharing economy giants like Airbnb contribute to an epidemic of online deception causing real world harm *Influencer Advertising versus Traditional Advertising* ,2021-07-21 Master s Thesis from the year 2020 in the subject Communications Public Relations Advertising Marketing Social Media grade 1 0 Klagenfurt University language English abstract In the field of marketing influencer promotions evolved to an established strategy to spread awareness about brands and to target potential customers Especially the beauty industry utilizes the strategic communication approaches through the embeddedness of products into the creative content of influencers in order to persuade consumers The purpose of this research paper is to examine the influencing power of those digital opinion leaders while comparing this potential with traditional print advertisements in magazines In this process particular focus has been laid on the perceived credibility of both marketing techniques applied on the luxury cosmetic market in Austria Through a quantitative survey with paper and pencil questionnaires data on attitudes and perceptions of 120 respondents could be gathered in Klagenfurt Results of the study reveal that influencer advertisings are not automatically more influencing than traditional print advertisements However a positive pre attitude towards beloved influencers affect people to develop a more positive attitude towards brands and products that were advertised by social

media opinion leaders These findings suggest that luxury cosmetic brands should create a marketing mix that implements a complementary storytelling strategy between influencer promotions and print advertisements Thereby companies can target influencer followers as well as consumers of older generations to achieve a communication concept which attract potential customers in a diversified way
