Phonics Practice Review Setup:

A Scoping Study Into Perceptions of Phonological Pedagogy in Rural Ghana Christopher John Counihan, 2010-01-27 Ghana's education system is in a state of transition. Since the introduction of the Free and Compulsory Universal Basic Education (FCUBE) initiative in 1995, the country has struggled to meet with the demands of providing accessible schooling for children at any level. Moreover, with the underdevelopment of early years and primary provision, more children face slipping through the net. The battle to get children into schools and keep them there is proving to be problematic across the country. As a result, children are losing out on vital core learning experiences, particularly literacy. English is the medium of instruction in Ghana and is taught in schools from the primary level. However, with a blend of English and mother tongue instruction, children are finding it significantly harder to grasp the basic skills. As a result, support from NGOs and teaching professionals have sought to find practical solutions through *vis-à-vis* and reciprocal partnerships.

Beauchat, 2016 *Starting Strong* shows teachers how to use four proven instructional approaches: standards-based, evidenced-based, assessment-based, and student-based, to improve their teaching practice in all areas of early literacy. Authors Katrin Blamey and Katherine Beauchat draw on their years of experience and early literacy expertise to guide you in figuring out what to teach and how to find the most instructionally sound method to teach it. They help you determine the instructional needs of your classroom and take full advantage of what you know about your students so you can engage them in learning. With chapters on oral language, vocabulary, phonological awareness, word recognition, comprehension, and writing skills, this comprehensive book explains each skill and provides research-based strategies for targeting each area. Supported by evidence-based research and aligned to key tenets of the Common Core, the book also includes classroom-tested activities and children's literature suggestions for each area of literacy. *Starting Strong* is an essential resource that any early literacy teacher or coach using a balanced literacy approach can use to build a solid foundation for their students.
