Cowboys Full James McManus, 2011-01-01 Cowboys Full traces the story of poker from its roots in China until Americans took what was a French parlour game and turned it into a national craze by the time of the American Civil War. Poker has been inextricably linked with American history ever since. It has been played by numerous presidents. Richard Nixon financed his first campaign office through his poker winnings and has been used as a political tool to explain policy for networking and to negotiate treaties. Poker echoes how we conduct wars and do business: cheating and bluffing, leveraging uncertainty, managing risk and reward. In the past, poker was thought to be a cheater's game, but it has since become a mostly honest contest of cunning, mathematics and luck. It is the world's and cyberspace's most popular card game and has had an immense impact on popular culture. McManus explores its portrayal in novels, movies and plays. Combining colourful history with the author's own personal experience of the professional tour, Cowboys Full introduces the reader to all the major forms of poker, the game's most notorious players and demonstrates how poker has informed military, diplomatic and business life for centuries.

Media Events in a Global Age Nick Couldry, Andreas Hepp, Friedrich Krotz, 2009-10-16 This volume assembles an estimable range of critical analyses of one of the most important mediated artifacts of the modern world: the media event. The authors challenge the construct, extend its usefulness, expand its theoretical basis and application and examine media events in a far larger and richer context than ever before. Students of global media today are well served by this superb collection of essays. David Morgan, Duke University, USA. A welcome and worthy successor to Dayan and Katz's path-breaking study that expands and enriches the discourse on global media events. Daya Thussu, University of Westminster, UK. This is an excellent collection that will enable new kinds of argument about and hopefully research into the spectacular functions of the contemporary media. Graeme Turner, University of Queensland, Australia. We live in an age where the media is intensely global and profoundly changed by digitalization. Not only do many media events have audiences who access them online, but additionally, digital media flows are generating new ways in which media events can emerge. In times of increasingly differentiated media technologies and fragmented media landscapes, the eventization of the media is increasingly important for the marketing and everyday appreciation of popular media texts. The events covered include Celebrity Big Brother, 9/11, the Iraq war and World Youth Day 2005, to give readers an understanding of the major debates in this increasingly high profile area of media and cultural research.
