Food Rotation Diet: A Step-by-Step Guide for Absolute Beginners, With Sample Recipes Bruce Ackerberg, Rotation diet is based on the principle of following regulated consumption of a variety of food nutrients whereby the body is made to wait for a few days to ensure its thorough absorption It also gives enough time for your body to get used to any allergic reaction or intolerance and in time heal yourself through a slow process of developing antibodies to counter such reactions Incidentally rotation diet was initially introduced as a weight loss diet because of the elimination of fat build up through proper diet However because of the ability of the rotation diet to detect hidden allergies to certain foods being taken by the individual and its capability of healing allergic reactions through food rotations and temporary elimination problem foods from your diet rotation diet has since been primarily used by individuals experiencing such ailments to heal themselves through its beneficial effects However rotation diet is not a quick fix diet plan to reduce your weight or remove your allergic reactions and food intolerances instantly Once you are decided to go on a rotation diet you have to prepare yourself for lifetime meal planning activities which as explained in the later chapter of this book will actually reward you with numerous benefits and healthy advantages to include your whole family as well Finally you don t have to be 100% thorough in implementing your corresponding meal plan and you can mess up from time to time What is important is that you religiously stick to your rotation diet despite such imperfections and focus instead on your progress and on the actual results of your diet

begin to explain one after the other all the mistakes he has made how he lost muscle mass through starvation why he does not lose weight even if he eats very little the role of hormones why diets are not effective the health benefits of losing weight but then I realize this is way too much information all at once All right here's what we'll do Tell me what you like to eat and I'll create a nutritional plan for you From tomorrow you will start to eat as we planned and gradually I will explain to you everything you need to know so that for the rest of your life you'll understand the principles of a fit and healthy body I see the hope in his eyes and a determination to succeed even if he doesn't yet understand much about what he should do He's confident again and I can feel his excitement Suddenly the sadness returns The problem is that from next week we move to another city The company I work for has seasonal vegetable warehouses and the vegetable season here will end this week I really want to do this but it looks like I'm going to fail again before I start How many weeks of counselling should I have with you and how much does it cost I know a personal trainer is quite expensive and I don't know if I try to stop him This is not about money He insists and takes cash from his pocket to pay me but I really can't take the money I literally can't I feel like I need some fresh air I say goodbye in a hurry I get in the car and I actually feel overwhelmed by sadness compassion but also admiration for his determination to take on responsibilities for his family and to keep looking for a solution for his own health problems He's got to make it he's got to do it I promise myself I'll do everything I can to help him and find a way to advise him even if he's far away I get home and the kids are all over me wanting to know why I am late I can't talk about it So that's how it started That night I worked to sort out his nutritional plan and to find a solution for the future From the next day he started eating according to my nutritional plan And I started writing every night chapter after chapter covering absolutely everything that he needed to know to get results He left the city and at the end of every week I sent him a new chapter I was working during the day doing workouts and providing nutritional advice as usual but I couldn't wait to get home so I could write some more After the first month he had lost a good few pounds and his self confidence had grown enormously He started posting pictures of himself His previous profile picture was of a wild horse After almost three months he had dropped multiple clothing sizes and was increasing the intensity of his exercises He sent me a message Guess what I have a girlfriend I knew how much it meant to him and I was so happy He'd lost some weight his clothes fitted him but this is what was really important his self esteem and self confidence were growing and he was making a huge difference to his overall health Meanwhile his willpower and determination to stick to the nutritional plan and the training programme despite being so far from me his personal trainer inspired me to write my first book on nutrition and training I collected all the chapters I had written and linked and improved them even adding demonstration videos with workouts that could easily be done at home I wouldn't have thought of writing a book before but sometimes when you believe you are inspiring and helping someone else you actually get inspired and help yourself I sent Joe the first copy of my book and can only thank him for allowing me to meet him and help him Today I want to share with you everything I wrote over this time I know that if you are like Joe you
