Solutions on Linux for IBM System z Lydia Parziale, Kathryn Arrell, Dennis Dutcavich, Terry Elliott, Bruce Frank, Erik Kane, IBM Redbooks, 2007-02-16. This IBM Redbooks publication describes experiences gained while installing and testing several Oracle solutions such as Single Instance of Oracle Database 10gR2, including sharing ORACLE_HOME and cloning Oracle databases, RAC Instance of Oracle Database 10gR2 using raw devices, block devices, or OCFS2 files, Oracle E-Business Suite 11.5.10.2 with a split configuration database on Linux on System z, Oracle AS10g. Interested readers include database consultants, installers, administrators, and system programmers. This book is not meant to replace Oracle documentation; it documents our experiences installing Oracle products. **Oracle Application Server 10g** Erin Mulder, Rob Harrop, Jan Machacek, Michael Wessler, 2013-11-09. Oracle Application Server 10g J2EE Deployment and Administration focuses on the latest version of Oracle's fully J2EE-certified application server, previously called Oracle9iAS. Oracle Corporation is aggressively attacking this market with a new, low-cost version of the server, as well as a program to move BEA customers onto Oracle, free of charge. Adoption interest is growing rapidly amidst favorable reports regarding performance and reliability. Deploying and configuring J2EE applications are some of the trickiest processes in J2EE development, and they unfortunately receive scant attention in general J2EE texts. This book is a focused, no-frills guide to getting J2EE applications up and running on 10g. It covers Oracle's J2EE container, OC4J, available free of charge for development purposes in full detail. It moves on to explain how to best configure and use the various enterprise-level features that come with the commercial editions. This is the book for anyone wanting to stay ahead in the world of Oracle's application servers. **OCA Oracle**
