An Introduction to Generative Drug Discovery Sean Ekins,2025-01-27 This book focuses on the latest advances in computational de novo drug discovery methods also known as generative drug discovery This book describes the state of the art methods and applications for de novo design of drug candidates using generative chemistry models as well as the ethical aspects of this technology It will provide a foundation for those new to the field as well as those that may already have some experience of its utility With contributions from scientists in both academia and industry an Introduction to Generative Drug Discovery may represent one of the earliest if not the first book to focus on this topic This book focuses on the latest advances in generative discovery methods This book will describe different state of the art applications of generative molecule design The book describes ethical aspects of generative drug discovery technology The mix of academic and industrial authors provides an array of applications of generative drug discovery A future perspective of where these generative technologies may take us in drug discovery is described included self driving labs

Higher Education - Reflections From the Field - Volume 3 ,2023-11-02 COVID wrought havoc on the world s economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the

face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Changing Education Education in the Pandemic Sustaining University Education and Embracing the Future in a Global World It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic *Resources in education* ,1988-02
