The Ordination of a Tree Susan M. Darlington, 2012-11-15 Thai Buddhist monks wrap orange clerical robes around trees to protect forests Ordaining a tree is a provocative ritual that has become the symbol of a small but influential monastic movement aimed at reversing environmental degradation and the unsustainable economic development and consumerism that fuel it This book examines the evolution of this movement from the late 1980s to the present exploring the tree ordination and other rituals used to resist destructive national projects Susan M Darlington explores monks motivations showing how they interpret their lived religion as the basis of their actions and provides an in depth portrait of activist monk Phrakhru Pitak Nanthakhun The obstacles monks face including damage to their reputations arrest and even assassination reveal the difficulty of enacting social justice Even the tree ordination itself must now withstand its appropriation for state projects Despite this monks have gone from individual action to a loosely allied movement that now works with nongovernmental organizations This is a fascinating firsthand account of engaged Buddhism
