America's New Map Thomas P.M. Barnett,2023-09-26 Three tectonic and inevitable shifts have left the world at a crossroads North America is poised to either re emerge as a global leader or turn back in time ceding power and influence to competitors The 21st century unleashed unprecedented changes across the globe to its climate to the demographic makeup of its nations and to the very nature of allegiance in the digital age With its global influence waning America must reevaluate its approach to globalization if it wishes to remain a leader In America s New Map Restoring Global Leadership in an Era of Climate Change and Demographic Collapse Thomas P M Barnett bestselling author of The Pentagon s New Map War and Peace in the Twenty First Century and acclaimed geo strategist offers seven throughlines to frame and redefine the ambitions and posture of these United States setting our Union on a bold but entirely familiar national trajectory In these pages Barnett offers a deep yet accessible dive into the three shifts that have lead us to this point As climate change ravages countries closest to the equator global dynamics are shifting from an East West emphasis to North South in the greatest geopolitical transformation our world has yet experienced and the Western Hemisphere is far better positioned to exploit this radical reorientation than the East Aging demographics worldwide favor more slowly aging nations including the US while challenging rapidly aging nations like China incentivizing countries best to delay that transition by integrating younger faster growing populations into their ranks In combination these two tectonic forces collide with a third the exploding consumption of an expanding and now majority global middle class the bulk of whom reside along the increasingly unstable North South frontier Taking every variable of these unique circumstances into account America s New Map charts a path toward a bigger and better United States We will all be living in somebody s world come mid century this book tells Americans how to make sure it is one we can recognize as our own

Renegades Trevor Boffone,2021 Renegades Digital Dance Cultures from Dubsmash to TikTok explores how hip hop culture principally music and dance is used to construct and perform identity and maintain a growing urban youth subculture This community finds its home on Dubsmash a social media

app that lets users record short dance challenge videos before cross sharing them on different social media apps such as Instagram and Snapchat Author Trevor Boffone interrogates the roles that Dubsmash social media and hip hop music and dance play in youth identity formation in the United States These so called Dubsmashers privilege their cultural and individual identities through the use of performance strategies that reinforce notions of community and social media interconnectedness in the digital age These young people create a sense of identity and community that informs and is informed by hip hop culture As such the book argues that Dubsmash serves as a fundamental space to fashion contemporary youth identity To do this the book re appropriates the term Renegade to explain the nuanced ways that Dubsmashers take up visual and sonic space on social media apps to self fashion identity form supportive digital communities and exert agency to take up space that is often denied to them in other facets of their lives *The Aftermath* Philip Bump, 2023-01-24 Philip Bump helps us understand that no matter the troubles of our days the future of this nation rests with what we do now And that means all of us not just Baby Boomers Eddie S Glaude Jr James S McDonnell Distinguished University Professor Princeton University A popular Washington Post columnist takes a deep dive into what the end of the baby boom means for American politics and economics Philip Bump a reporter as adept with a graph as with a paragraph is popular for his ability to distill vast amounts of data into accessible stories THE AFTERMATH is a sweeping assessment of how the baby boom created modern America and where power wealth and politics will shift as the boom ends How much longer than we d expected will Boomers control wealth Will millennials get shortchanged for jobs and capital as Gen Z rises What kind of pressure will Boomers exert on the health care system How do generations and parties overlap When will regional identity trump age or ethnic or racial identity Who will the future GOP voter be and how does that affect Democratic strategies What does the Census get right and terribly wrong The questions are myriad and Bump is here to fight speculation with fact Writing with a light hand and deft humor Bump helps us navigate the flood of data in which our sense of the country now drowns He fits numbers into a narrative about who we are including what we really means how we vote where we live what we buy and what predictions we can make with any confidence We know what will happen eventually to the baby boomers What we don t know is how the boomer legacies might reshape the country one final time The answers in this book will help us manage the historic disruption of the American state we are now experiencing Connected Histories Eva Pfanzelter, Dirk Rupnow, Éva Kovács, Marianne Windsperger, 2024-09-23 The World Wide Web WWW and digitisation have become important sites and tools for the history of the Holocaust and its commemoration Today some memory institutions use the Internet at a high professional level as a venue for self presentation and as a forum for the discussion of Holocaust related topics for potentially international transcultural and interdisciplinary user groups At the same time it is not always the established institutions that utilise the technical possibilities and potential of the Internet to the maximum Creative and sometimes controversial new forms of storytelling of the Holocaust or more traditional ways of remembering the genocide

presented in a new way with digital media often come from people or groups who are not in the realm of influence of the large memorial sites museums and archives Such private stagings have experienced a particular upswing since the boom of social media This democratisation of Holocaust memory and history is crucial though it is as yet undecided how much it will ultimately reinforce old structures and cultural regional or other inequalities or reinvent them The Digital space as an arbitrary and limitless archive for the mediation of the Holocaust spanning from Russia to Brazil is at the centre of the essays collected in this volume This space is also considered as a forum for negotiation a meeting place and a battleground for generations and stories and as such offers the opportunity to reconsider the transgenerational transmission of trauma family histories and communication Here it becomes evident there are new societal intentions and decision making structures that exceed the capabilities of traditional mass media and thrive on the participation of a broad public
