Stakeholders Mark Englezian, 2025-07-29. People in business ecosystem are more in number and diverse in perspective discussed in business school or written about than often understood. It is foolhardy to believe that a senior leader can ignore or work around these people who possess power and influence over the business and the enterprise. It is up to supervisors, managers, executives and independent directors to set priorities and make value-based decisions that constructively benefit all stakeholder groups invested in their business. When asked about their experiences on the people side of business, most businesspersons respond from their experiences with the human resources department. In contrast, this book advances the idea of people in business as more than simply a focus on employees. Leaders with a holistic view realize the existence of eight major stakeholder groups, diverse in makeup and ready to advocate for their own interests. While its story is at first quite intimidating, laying out the competing agendas of stakeholders and the potential chaos that might ensue, this book will not leave the reader hanging; it serves up new and proprietary principles never published before that equip business leaders to survive and thrive.

Social Media Measurement and Management Jeremy Harris Lipschultz, 2024-08-01. This revised and updated textbook applies a critical and practical lens to the world of social media analytics. Author Jeremy Harris Lipschultz explores the foundations of digital data, strategic tools and best practices in an accessible volume for students and practitioners of social media communication. This second edition expands upon entrepreneurship, marketing and technological principles, demonstrating how raising awareness, sparking engagement and producing business outcomes all require emphasis on customers, employees and other stakeholders within paid, earned, social and owned media. It also looks to the future, examining how the movement toward artificial intelligence and machine learning raises new legal and ethical issues in effective management of social media data. Additionally, the book offers a solid grounding in the principles of social media measurement, itself teaching the strategies and techniques that enable effective analysis. It features theoretical and practical advice, a comprehensive glossary of key terms and case studies from academic and industry thought leaders. A perfect primer for this developing industry, this book is ideal for students, scholars and practitioners of digital media seeking to hone their skills and expand their bank of new tools and resources.

Headlines That Matter Kavita Chandran, Saldene Lyte, 2025. Not every news announcement grabs a financial trader's attention, prompting them to initiate a buy or sell call. Glued to their screens every day, traders are alerted to important information by journalists who work with news agencies such as Reuters, Bloomberg, Associated Press and Dow Jones, to name a few. American wires or regional wire services such as Agence France Presse (AFP), Press Trust of India (PTI) or Algemeen
