New Power Jeremy Heimans, Henry Timms, 2018-04-03 NOW A NATIONAL BESTSELLER The definitive guide to spreading ideas building movements and leaping ahead in our chaotic connected age Get the book New York Times columnist David Brooks calls the best window I've seen into this new world Why do some leap ahead while others fall behind in our chaotic connected age In *New Power* Jeremy Heimans and Henry Timms confront the biggest stories of our time the rise of mega platforms like Facebook and Uber the out of nowhere victories of Obama and Trump the unexpected emergence of movements like MeToo and reveal what's really behind them the rise of new power For most of human history the rules of power were clear power was something to be seized and then jealously guarded This old power was out of reach for the vast majority of people But our ubiquitous connectivity makes possible a different kind of power New power is made by many It is open participatory and peer driven It works like a current not a currency and it is most forceful when it surges The battle between old and new power is determining who governs us how we work and even how we think and feel New Power shines fresh light on the cultural phenomena of our day from BlackLivesMatter to the Ice Bucket Challenge to Airbnb uncovering the new power forces that made them huge Drawing on examples from business activism and pop culture as well as the study of organizations like Lego NASA Reddit and TED Heimans and Timms explain how to build new power and channel it successfully They also explore the dark side of these forces the way ISIS has co-opted new power to monstrous ends and the rise of the alt right's intensity machine In an era increasingly shaped by new power this groundbreaking book offers us a new way to understand the world and our role in it

Kings of the Internet Mohammad Bahareh, 2012-04-18 What's in the Book

The Internet is considered among one of those inventions of modern age which have just revolutionized the world It s most powerful information pertaining to anything and everything that we can think of can be obtained through the Internet In this book You will be introduced with the masterminds who were behind the idea of creating a world at the back of a monitor screen From just an idea they have created technology that has brought about a difference in our lives They who made our life easier by making our day to day work just a few click away They who brought us close to our dear ones They are referred to Kings of Internet They are the ones who took the technology to common hands with the powerful tools they have invented and transformed Internet into huge market place Here we are trying to honor those Kings with few sentences on their early life their struggle the achievement they have made and their future place for us

Trust in a Complex World Charles Heckscher,2015-10-30 Can we rebuild trust in a time of increasing conflict and paralysis Or rather can we build trust for the first time wide and strong enough to bring us together to work on the complex problems of our age Relations of trust have been weakened over the past century by a historic expansion of communication and cross cultural interaction and the advance of complex fluid relationships Now the rapid rise of the internet has accelerated the disruption Many long for the comfort and security of relations in which one knew whom to trust and what to expect yet at the same time they may embrace the dynamism and creativity that comes from mixing of cultures and perspectives This book explores current conflicts and confusions of relations and identities using both general theory and specific cases It argues that we are at a catalyzing moment in a long transition from a community in which the prime rule was tolerance to one with a commitment to understanding from one where it was considered wrong to argue about cultural differences to one where such arguments are essential The development of this rich community is essential as well as difficult Complex societies produce complex challenges from climate change to inequality to the risk laden opportunities of bioengineering that demand collaboration among people with widely varying views Such brewing crises cannot be worked through without far more deliberate discussion and cooperation and higher levels of trust than we have today This book explores many challenges ahead and suggests some practical directions for resolving them

Youth Digital Health and Online Platforms Martyna Gliniecka, 2024-12-27 Youth Digital Health and Online Platforms focuses on young people s use of the digital platform Reddit for health Drawing upon dialogism theory the book explores how young people produce a youth led discourse of youth digital health different from the adult led framing represented in youth digital health research policy and service delivery Peer led discussions online remain one of the controversial forms of youth digital health associated with negative peer influence or casual teenage talk This book argues that online peer led dialogues support young people s agency in health and that young people can benefit from dealing with

health issues with peers The work is based on the digital ethnography of teenagers subreddits on Reddit and utilises a theoretical framework of dialogism a linguistic based theory originated by an early 20th century Russian philosopher Mikhail Bakhtin The book introduces the concept of dialogical youth led youth digital health discourse formed in the peer led space of Reddit This youth led discourse celebrates equality and diversity amongst people meanings and opinions It is constructed around three relational elements socio material affordances creative practices and a plurality of youth voices Reddit s pseudonymous anti authoritarian and egalitarian nature supports the emergence of this youth led discourse The book can interest scholars and lecturers in childhood and youth studies Internet studies and youth health studies Professionals such as policymakers service designers deliverers online safety educators and global youth and health agencies can use evidence based insights in their work with young people

Power to the Players Rob Smat,2023-11-21 The sea shanties YOLO s and red bandanas aren t even half of the GameStop story Did you know Robinhood didn t initiate their infamous trading halt Did you know why Redditors refer to 2021 as the sneeze rather than the squeeze Did you know that shares in your brokerage account might be counterfeits If not buckle up Witness firsthand the real and utterly ludicrous hivemind that brought Wall Street to its knees in January 2021 and find out why GameStop was only the beginning of an even more unprecedented retail contagion one which will challenge everything you think you know about our markets all over again If the meme mania of 2021 drew blood from Wall Street what follows is the Shakespearean realization that Reddit s blade was in fact poisoned In a digital world of frequently deleted revised and buried information accurately piecing together events as they occurred is nearly impossible Other authors and journalists have understandably struggled but not author Rob Smat who has been a witness to every part of the GameStop phenomenon having lived it himself Power to the Players is as much an unabridged history of the GameStop sneeze as it is a roadmap of how retail traders regrouped in the months and years that followed when everyone else thought the story had ended in calamity The truest of diamond hands never sold and their power has only grown stronger since Before Redditors were only a nuisance to the status quo Now they

Hijacking Bitcoin Roger Ver,Steve Patterson,2024-04-05 Bitcoin was promised to be a liberating technology a free market alternative to state controlled money But that promise was broken after a small group of insiders took over the project and fundamentally changed Bitcoin s design Few people know the true history of Bitcoin and its original design due to years of heavy censorship social media engineering and tight information controls online Hijacking Bitcoin destroys the most popular narratives that surround Bitcoin and sets the historical record straight Roger Ver s passion and pain come through as he tells the story of a beloved project corrupted in front of his eyes Written by one of the most prominent figures in the cryptocurrency industry this book is impossible to ignore From the inside flap Bitcoin has been captured and changed for the worse That s the undeniable conclusion of Hijacking Bitcoin Chocked full of history and inconvenient truths this book goes on a myth busting rampage against the most popular narratives that surround BTC Is Bitcoin truly decentralized Is it supposed to be digital

gold or digital cash Did the original design really have scaling problems Roger Ver addresses these questions head on and provides uncomfortable answers Roger Ver is the world s first investor in Bitcoin startups and has been a prominent name in the cryptocurrency industry since the beginning Yet as he confesses in the introduction this book is not a love story It s a devastating expos of the corruption propaganda and centralization of power in Bitcoin The Kaleidoscope of Lived Curricula Karin Ann Lewis, Kimberly Banda, Martha Briseno, Eric J. Weber, 2021-11-01 Within the context of recent and ongoing plural pandemics such as COVID 19 up ending lives social and racial chaos and catastrophe political pressures and economic convulsions The Kaleidoscope of Lived Curricula Learning Through a Confluence of Crises offers a journey through a collection of scholarly reflective creative pieces stories of lived curricula Like a kaleidoscope filled with loose pieces of simple colored glass and objects transforming into an infinite variety of beautiful forms and patterns with the slightest turn the collection of pieces in this book reflect images of the sky that nurtures life sun that illuminates understanding earth that shifts and grounds us fire that is primal intending to spark and extend curricular and pedagogical conversations and understandings This book provides a lens through which to observe and experience how plural pandemics shifted the lived curricula the colored glass and objects in the lives of others to surface contextualize confront and curate challenges as well as celebrate the courageous and elevate and empower marginalized groups to relate learn and heal through stories of lived curricula This beautiful collection brings readers to an awareness understanding and appreciation of the lived curricula unlike they have ever experienced before Facebook Nation Newton Lee, 2012-09-15 President Barack Obama in his 2011 State of the Union Address called America the nation of Edison and the Wright brothers and of Google and Facebook U S Chief Information Officer Steven VanRoekel said that America has become a Facebook nation that demands increased transparency and interactivity from the federal government Facebook as a nation in 2012 would be the third largest country in the world with over 900 million citizens after China and India This book portrays the social media ecosystem as a world of increasing Total Information Awareness which is essentially a civilian version of the controversial Total Information Awareness program unveiled in 2002 by the Defense Advanced Research Projects Agency DARPA at the U S Department of Defense Back in the 60 s DARPA initiated and funded the research and development of Advanced Research Projects Agency Network ARPANET that went online in 1969 The success of ARPANET gave rise to the global commercial Internet in the 90 s and the new generation of Fortune 500 companies today including Amazon com Google eBay and Yahoo As if life comes full circle in the 21st century private businesses and the ubiquity of social networks such as Facebook Google Twitter and YouTube are creating the technologies and infrastructures necessary for the DARPA proposed Total Information Awareness program WikiLeaks founder Julian Assange called Facebook the most appalling spying machine that has ever been invented Indeed military and civilian technologies have interwoven into every fabric of our society as Facebook co founder and CEO Mark Zuckerberg said We exist at the intersection of technology and social issues This book offers discourse and practical
