 Facebook has fundamentally changed how the world connects. No other company has played a greater role in the history of
 social networking online. Yet Facebook is no longer simply a social networking site or social media platform. Facebook is
 Facebook. Taina Bucher shows how Facebook has become an idea of its own, something that cannot be fully described using
 broader categories. Facebook has become so commonplace that most people have a conception of what it is, yet it increasingly
 defies categorization. If we want to understand Facebook's power in contemporary society and culture, Bucher argues, we
 need to start by challenging our widespread conception of what Facebook is. Tracing the development and evolution of
 Facebook as a social networking site, platform, infrastructure, and advertising company, she invites readers to consider
 Facebook anew. Contrary to the belief that nobody uses Facebook anymore, Facebook has never been more powerful. This
 timely book is important reading for students and scholars of media and communication, as well as anyone seeking to
 understand the Facebook phenomenon. **Women in the Studio** Paula Wolfe, 2019-06-25 The field of popular music
 production is overwhelmingly male-dominated. Here Paula Wolfe discusses gendered notions of creativity and examines the
 significant underrepresentation of women in studio production. Wolfe brings an invaluable perspective as both a working

artist producer and as a scholar thereby offering a new body of research based on interviews and first hand observation Wolfe demonstrates that patriarchal frameworks continue to form the backbone of the music industry establishment but that women s work in the creation and control of sound presents a potent challenge to gender stereotyping marginalisation and containment of women s achievements that is still in evidence in music marketing practices and media representation in the digital era
