War and Ideas John Mueller,2013-09-13 This book collects the key essays together with updating notes and commentary of Professor John Mueller on war and the role of ideas and opinions Mueller has maintained that war and peace are in essence merely ideas and that war has waned as the notion that peace is a decidedly good idea has gained currency The first part of the book extends this argument noting that as ideas have spread war is losing out not only in the developed world but now in the developing one and that even civil war is in marked decline It also assesses and critiques theories arguing that this phenomenon is caused by the rising acceptance of democracy and or capitalism The second part argues that the Cold War was at base a clash of ideas that were seen to be threatening not of arms balances domestic systems geography or international structure It also maintains that there has been a considerable tendency to exaggerate security threats currently in particular the one presented by international terrorism and to see them in excessively military terms The third section deals with the role public opinion plays in foreign policy and argues that many earlier conclusions about opinion during the Korean and Vietnam Wars including especially ones concerning the importance of casualties in determining popular support for war apply to more recent military ventures in the Persian Gulf Bosnia Iraq and Afghanistan It also assesses the difficulties leaders and idea entrepreneurs often encounter when they try to manage or manipulate public opinion This book will be of much interest to students of international relations security studies foreign policy and international history

book to reflect recent developments in Disney and Disney Pixar animation such as the apocalyptic tale of earth's failed ecosystem WALL-E. As Whitley has shown and Disney's newest films continue to demonstrate the messages animated films convey about the natural world are of crucial importance to their child viewers. Beginning with Snow White, Whitley examines a wide range of Disney's feature animations in which images of wild nature are central to the narrative. He challenges the notion that the sentimentality of the Disney aesthetic, an oft-criticized aspect of such films as *Bambi*, *The Jungle Book*, *Pocahontas*, *Beauty and the Beast*, and *Finding Nemo*, necessarily prevents audiences from developing a critical awareness of contested environmental issues. On the contrary, even as the films communicate the central ideologies of the times in which they were produced, they also express the ambiguities and tensions that underlie these dominant values. In distinguishing among the effects produced by each film and revealing the diverse ways in which images of nature are mediated, Whitley urges us towards a more complex interpretation of the classic Disney canon and makes an important contribution to our understanding of the role popular art plays in shaping the emotions and ideas that are central to contemporary experience.

Photoplay, 1920 **Designs on the Past** Lloyd Llewellyn-Jones, 2018-07-13 The epic glitter and glamour of Hollywood's Golden Age. In the period 1916-1966, during its so-called Golden Age, Hollywood developed a passion for the ancient world and produced many epic movie blockbusters. The studios used every device they could find to wow audiences with the spectacle of antiquity. In this unique study, Lloyd Llewellyn Jones shows how Hollywood carefully and skilfully created the popular modern perception of the ancient world. He analyses how producers, art directors, costumiers, publicity agents, movie stars, and inevitably a cast of thousands literally designed and crafted the ancient world from scratch. This lively book offers a technical as well as a theoretical guide to a much neglected area of film studies and reception studies that will appeal to anyone working in these disciplines. Key Features: Lavishly illustrated with film stills and examples of rare and fascinating marketing material. Broad coverage of films including *The King of Kings*, *The Sign of the Cross*, *Samson and Delilah*, *Land of the Pharaohs*, *The Ten Commandments*, *Ben Hur*, *Spartacus*, and *Cleopatra*. Considers different aspects of film production: the Hollywood set, costume design, the role of the movie star, dialogue, narration, and music. Sets a new agenda for exploring the relationship between history and film, and between history and visual culture. Explores the archaeology of stardom, examining the onscreen/offscreen images of Elizabeth Taylor, Charlton Heston, and Rita Hayworth. Includes a filmography, chronological outline, and study aids.
