Return of the Artisan Grant McCracken, 2022-07-12 Discover the evolution of the artisanal movement from the fringes of the 1970s to the spike of domesticity home cooking gardening and DIY crafting caused by COVID 19 and what it means for the future of work and American culture In the 1950s America was a world of immaculate grocery stores brightly packaged consumer goods relentless big brand advertising homes that were much too clean and diets so rich in salt sugar fat and preservatives you nearly have a heart attack just thinking of them And while this approach made a great fortune for large consumer packaged goods companies it has been detrimental to American s overall health and wellbeing Then towards the end of the 20th century Alice Waters and other pioneers figured out how to market natural handmade small batch products to the American consumer again and the rest is history Now we are in the third wave of a revolution Thanks to COVID 19 millions of Americans went from being consumers of artisanal goods to being producers People in the mainstream are baking bread keeping bees growing vegetables and even raising chickens Gardens are flourishing workshops are growing and sewing machines are whirring Thousands have left the cities for the countryside and if their companies don t require it they might never return Return of the Artisan is a collection of stories and interviews with artisanal businesses across America including family farms and collectives This book explores their business models their motivations and explores how you can join them by turning your own hobby or passion into your work Whether you want to make this a profession or simply enjoy providing artisanal goods to your family and friends this book is a must have for navigating the ups and downs of the latest artisanal revolution
