Medicine And Care Of The Dying A Modern History:

Medicine and Care of the Dying Milton James Lewis, 2007 This book is for palliative care practitioners and all health care professionals with an interest in end of life care **The Dying Experience** Samuel H. LiPuma, Joseph P.

DeMarco, 2019-03-27 This vitally important book attempts to move beyond the current death denying culture The use of euphemistic and defiant phrases when dealing with terminal disease such as She lost her battle with cancer was more appropriate when medical doctors could do little to prolong life But treatments and technologies have significantly changed Now life prolonging interventions have outpaced our willingness to use medical intervention to secure patient control over death and dying We now face a new question When is it morally appropriate for medical intervention to hasten the dying process LiPuma and DeMarco answer by endorsing expanded options for dying patients Unwanted aggressive treatment regimens and protocols which reject hastening death should be replaced by a patient's moral right in carefully defined circumstances to hasten death by means of medical intervention Expanded options range from patient directed continuous sedation without hydration to physician assisted suicide for those with progressive degenerative disorders such as Alzheimer's The authors overriding goal is to humanize the dying process by expanding patient centered autonomous control

Encyclopedia of Health Services Research Ross M. Mullner, 2009-05-20 Within two volumes more than 400 signed entries and their associated bibliographies and recommended readings authoritatively cover issues in both the historical and contemporary context of health services research **Textbook of Palliative Medicine** Eduardo Bruera, Irene

Higginson, Charles F von Gunten, 2009-01-30 Textbook of Palliative Medicine provides an alternative truly international approach to this rapidly growing specialty This textbook fills a niche with its evidence based multi professional approach and global perspective ensured by the international team of editors and contributing authors In the absence of an international curriculum for the study of palliative medicine this textbook provides essential guidance for those both embarking upon a career in palliative medicine or already established in the field and the structure and content have been constructed very much with this in mind With an emphasis on providing a service anywhere in the world including the important issue of palliative care in the developing nations Textbook of Palliative Medicine offers a genuine alternative to the narrative approach of its competitors and is an ideal complement to them It is essential reading for all palliative care physicians in training and in practice as well as palliative care nurses and other health professionals in the palliative care team **Oxford**

Textbook of Palliative Medicine Geoffrey W. C. Hanks, 2011-07-21 Emphasising the multi disciplinary nature of palliative care the fourth edition of this text also looks at the individual professional roles that contribute to the best quality palliative care Palliative Medicine and Hospice Care, An Issue of Veterinary Clinics: Small Animal Practice Tami

Shearer, 2011-05-28 Introducing one of the first primers on palliative and hospice care for the small animal veterinarian Guest edited by Dr Tami Shearer this volume will include topics such as the history of pet hospice delivery systems of

veterinary hospice and palliative care 5 step pet hospice plan a veterinarian's role in helping pet owners with decision making quality of life assessment techniques assessment and treatment of pain in life limiting disease the role of rehabilitation techniques for hospice and palliative care patients the role of nutrition and alternative care methods in hospice and palliative care patients emotional support tips ethical considerations in life limiting conditions case studies and much more

Narrative Medicine in Hospice Care Tara Flanagan, 2019-12-13 Narrative medicine an interdisciplinary field that brings together the studies of literature and medicine offers both a way of understanding patient identity and a method for developing a clinician's responsiveness to patients While recognizing the value of narrative medicine in clinical encounters including the ethical aspects of patient discourse Tara Flanagan examines the limits of narrative practices for patients with cognitive and verbal deficits In *Narrative Medicine in Hospice Care Identity Practice and Ethics through the Lens of Paul Ricoeur* Flanagan contends that the models of selfhood and care found in the work of Ricoeur can offer a framework for clinicians and caregivers regardless of the verbal and cognitive capabilities of a patient at the end of life In particular Ricoeur's concept of patient identity connects with the narrative method of life review in hospice and offers an opportunity to address the religious and spiritual dimensions of the patient experience

The Pragmeme of Accommodation: The Case of Interaction around the Event of Death Vahid Parvaresh, Alessandro Capone, 2017-06-02 This volume brings together a wide array of papers which explore among other things to what extent languages and cultures are variable with respect to the interactions around the event of death Motivated by J L Mey's idea of the pragmeme a situated speech act the volume has both theoretical and practical implications for scholars working in different fields of enquiry As the papers in this volume reveal despite the terminological differences between various disciplines the interactions around the event of death serve to provide solace not only to the dying but also to the family and friends of the deceased thus helping them to accommodate to the new state of affairs

Palliative Care Harold Y. Vanderpool, 2015-07-11 The long history of medical care for the dying has largely been neglected It began in 1605 when physicians were challenged to enable persons to die peacefully Today it includes palliation of oppressive symptoms emotional and psychological care and respect for the wishes and cultural backgrounds of patients and families Especially since the 1990s it embraces symptom easing palliation for patients with severe life limiting and chronic illnesses Providing a detailed picture of contemporary palliative care this book chronicles four centuries of the quest for a good death covering the fight against futile end of life treatments the history of life extending treatments and technologies the roles of nurses the liberation of the dying from isolation in hospitals and hard won victories to secure patients right to choose

To Comfort Always David Clark, 2016 Covers the rise of clinical studies academic programmes and international collaborations to promote palliative care It examines the continuing need to provide evidence in support of development and assesses the dilemmas of unequal access to services and pain relieving drugs

Mahar, 2023-02-07 I have quite a bit of understanding of white man's ways but it is difficult for me to understand this one A Senate committee investigation of Australia's Northern Territory Rights of the Terminally Ill Act 1995 the first legislation in the world which allowed doctors to actively assist patients to die found that for the vast majority of Indigenous Territorians the idea that a physician or anyone else should help end a dying suffering person's life was so foreign that in some instances it proved almost impossible to translate This book explores how such a death became a thinkable even desirable way to die for so many others in Western cultures Though euthanasia meaning good death derives from ancient Greece for the Greeks this was a matter of Fate or a gift the gods bestowed on the virtuous or simply lucky Caring for the dying was not part of the doctor's remit For the Victorians a good death meant one blessed by God and widespread belief in a divine design and the value of suffering created resistance to new forms of pain relief And today while most in the Western world cleave to the modern medical view that pain is an aberration to be where possible eliminated complex cultural ethical and practical questions regarding what makes for a good death remain As Caitlin Mahar memorably shows in *The Good Death Through Time* understanding the radical historical shift in Western attitudes to managing dying and suffering helps us better grasp the stakes in today's contestations over what it means to die well *The ^AVirtues of Vulnerability* Sara

Rushing, 2020-11-20 This book treats contemporary healthcare as a site of politics a place of embodiment and vulnerability

that we typically regard as private and personal but is saturated with power knowledge questions of equality identity justice and moments that solicit compliance and open up possibilities for resistance What do we learn about what it means to be a citizen as we navigate the clinic during birth illness and death This book looks at the ways in which we navigate birth illness and death in order to think about how vulnerability and humility can inform political will and participation in pluralist public life more broadly

persistent vegetative state The Routledge Handbook of Religion, Medicine, and Health Dorothea Lüddeckens, Philipp Hetmanczyk, Pamela E. Klassen, Justin B. Stein, 2021-11-24 The relationships between religion spirituality health biomedical institutions complementary and alternative healing systems are widely discussed today While many of these debates revolve around the biomedical legitimacy of religious modes of healing the market for them continues to grow The Routledge Handbook of Religion Medicine and Health is an outstanding reference source to the key topics problems and debates in this exciting subject and is the first collection of its kind Comprising over thirty five chapters by a team of international contributors the Handbook is divided into five parts Healing practices with religious roots and frames Religious actors in and around the medical field Organizing infrastructures of religion and medicine pluralism and competition Boundary making between religion and medicine Religion and epidemics Within these sections central issues debates and problems are examined including health and healing religiosity spirituality biomedicine medicalization complementary medicine medical therapy efficacy agency and the nexus of body mind and spirit The Routledge Handbook of Religion Medicine and Health is essential reading for students and researchers in religious studies The Handbook will also be very useful for those in related fields such as sociology anthropology and medicine *Death in the Middle Ages and Early Modern Times* Albrecht Classen, 2016-04-11 Death is not only the final moment of life it also casts a huge shadow on human society at large People throughout time have had to cope with death as an existential experience and this also of course in the premodern world The contributors to the present volume examine the material and spiritual conditions of the culture of death studying specific buildings and spaces literary works and art objects theatrical performances and medical tracts from the early Middle Ages to the late eighteenth century Death has always evoked fear terror and awe it has puzzled and troubled people forcing theologians and philosophers to respond and provide answers for questions that seem to evade real explanations The more we learn about the culture of death the more we can comprehend the culture of life As this volume demonstrates the approaches to death varied widely also in the Middle Ages and the early modern age This volume hence adds a significant number of new facets to the critical examination of this ever present phenomenon of death exploring poetic responses to the Black Death types of execution of a female murderess death as the springboard for major political changes and death reflected in morality plays and art **A Public Health Strategy for Living, Aging and Dying in Solidarity** Mary Beth Morrissey, Melissa Lang, Barney Newman, 2018-06-27 With more people living longer lives there is increased importance in the health care industry on improving services for the elderly This comprehensive book gives an expert overview of the topics and challenges along with imperative ethical and legal frameworks The book also details existing programs and benefits in relation to a realistic portrayal of population needs Other important issues are covered such as long term palliative care and hospice other vulnerable populations elder abuse public private collaboration evidence based policy making and much more **A History of Palliative Care, 1500-1970** Michael Stolberg, 2017-04-28 This book on the history of palliative care 1500

1970 traces the historical roots of modern palliative care in Europe to the rise of the hospice movement in the 1960s. The author discusses largely forgotten premodern concepts like *cura palliativa* and *euthanasia medica* and describes how patients and physicians experienced and dealt with terminal illness. He traces the origins of hospitals for incurable and dying patients and follows the long history of ethical debates on issues like truth telling and the intentional shortening of the dying patients' lives and the controversies they sparked between physicians and patients. An eye opener for anyone interested in the history of ethical decision making regarding terminal care of critically ill patients.
