Ziolkowski, 2018-06-11 This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt he is saved when the statue delighted by his skill miraculously comes to life Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth century Paris before its translation into English in Britain and the United States The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today The Juggler of Notre Dame and the Medievalizing of Modernity is a rich case study for the reception of the Middle Ages in modernity Spanning centuries and continents the medieval period is understood through the lens of its post modern reception in Europe and America Profound connections between the verbal and the visual are illustrated by a rich trove of images including book illustrations stained glass postage stamps architecture and Christmas cards Presented with great clarity and simplicity Ziolkowski's work is accessible to the general reader while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies medievalism philology literary history art history folklore performance studies and reception studies **The Cistercians in Medieval Art** James France, 1998 The Cistercian Order emerged as a radical breakaway movement at the end of the 11th century with a commitment to reforming the monastic life Uniformity of customs and practice was sought through the institution whereby abbots from all over Christendom came together for the General Chapter at the mother abbey of Cîteaux This and the visitation of all the abbeys by the abbot of their founding house ensured a degree of cohesion not equalled by any other body not even the papacy itself The Order subsequently became one of the most powerful spiritual cultural and economic forces

within medieval Europe established in over 700 locations by the early 16th century As a result the Cistercians may be considered pioneers of the European ideal **Religious Education in Pre-Modern Europe** Ilinca

Tanaseanu-Döbler, Marvin Döbler, 2012-09-28 Although religious education is a crucial topic in present day History of Religions its study focuses on contemporary phenomena and is still undertheorised The present volume proposes a comprehensive theoretical framework based on interdisciplinary case studies of religious education in pre modern Europe

Bernard of Clairvaux on the Spirituality of Relationship John R. Sommerfeldt, 2004 **Counter-Reformation Sanctity in Global and Material Perspective** Ruth Sargent Noyes, 2024-11-29 This book explores the making of saints cults in the early modern world from an interdisciplinary perspective considering the entangled roles of materiality and globalization processes It brings together work across diverse media objects and materials as well as communities cultures

and geographies to reframe a more synoptic materials centric and comparative history of the making and remaking of saints cults with a special focus on the long Counter Reformation The contributions engage with dynamics of local and universal and draw attention to the vital role of textual visual and material hagiographies in the creation and promotion of saints and would be saints cults The book fosters novel conceptualizations and cross pollination of ideas across traditions regions and disciplines and expands hagiography s horizons by reconsidering canonical saintly figures and reframing lesser known cults of saints and would be saints The book will be of interest to scholars of religious and early modern history as well as art history and visual and material studies Bodies in Early Modern Religious Dissent Elisabeth Fischer,Xenia von

Tippelskirch,2021-05-30 In early modern times religious affiliation was often communicated through bodily practices Despite various attempts at definition these practices remained extremely fluid and lent themselves to individual appropriation and to evasion of church and state control Because bodily practices prompted much debate they serve as a useful starting point for examining denominational divisions allowing scholars to explore the actions of smaller and more radical divergent groups The focus on bodies and conflicts over bodily practices are the starting point for the contributors to this volume who depart from established national and denominational historiographies to probe the often ambiguous phenomena occurring at the interstices of confessional boundaries In this way the authors examine a variety of religious living conditions socio cultural groups and spiritual networks of early modern Europe and the Americas The cases gathered here skillfully demonstrate the diverse ways in which regional and local differences affected the interpretation of bodily signs This book will appeal to scholars and students of early modern Europe and the Americas as well as those interested in religious and gender history and the history of dissent **A Companion to Bernard of Clairvaux** ,2011-03-21 Bernard of Clairvaux is perhaps the most

controversial figure of Western Europe s vibrant twelfth century Unlike Abelard who is seen as a proponent of modern thinking Bernard is often relegated to the darkest corner of the Middle Ages Nothing is easy with Bernard but these fresh evaluations of him and their reviews of recent scholarship enable the reader to make a more balanced evaluation of the man his writings and his impact on his period Bernard emerges as a multifaceted figure who sought to reform monasticism and ended up becoming a saint with an appeal to virtually all classes in medieval society Bernard lives on today with the lay and monastic scholars who continue to find new layers of meaning in his writings Contributors include Christopher Holdsworth Michael Casey James France Diane Reilly John Sommerfeldt Mette B Bruun Burcht Pranger Chrysogonus Waddell E Rozanne Elder and Brian Patrick McGuire *Bernard of Clairvaux on the Life of the Mind* John R. Astell,2016-02-09 The enigmatic link between the natural and artistic beauty that is to be contemplated but not eaten on the one hand and the eucharistic beauty that is both seen with the eyes of faith and eaten on the other intrigues me and inspires this book One cannot ask theo aesthetic questions about the Eucharist without engaging fundamental questions about the relationship between beauty art broadly defined and eating from Eating Beauty In a remarkable book that is at once learned startlingly original and highly personal Ann W Astell explores the ambiguity of the phrase eating beauty The phrase evokes the destruction of beauty the devouring mouth of the grave the mouth of hell To eat beauty is to destroy it Yet in the case of the Eucharist the person of faith who eats the Host is transformed into beauty itself literally incorporated into Christ In this sense Astell explains the Eucharist was productive of an entire way of life a virtuous life form an artwork with Christ himself as the principal artist The Eucharist established for the people of the Middle Ages distinctive schools of sanctity Cistercian Franciscan Dominican and Ignatian whose members were united by the eucharistic sacrament that they received Reading the lives of the saints not primarily as historical documents but as iconic expressions of original artworks fashioned by the eucharistic Christ Astell puts the faceless Host in a dynamic relationship with these icons With the advent of each new spirituality the Christian idea of beauty expanded to include first the marred beauty of the saint and finally that of the church torn by division an anti aesthetic beauty embracing process suffering deformity and disappearance

as well as the radiant lightness of the resurrected body This astonishing work of intellectual and religious history is illustrated with telling artistic examples ranging from medieval manuscript illuminations to sculptures by Michelangelo and paintings by Salvador Dalí Astell puts the lives of medieval saints in conversation with modern philosophers as disparate as Simone Weil and G W F Hegel
