Super Consciousness: a Guide to Meditation J. Donald Walters, 1998 **Two Souls: Four Lives** Catherine Kairavi, 2010-10-16 Is it possible that two of the greatest men of the Norman Conquest William the Conqueror and his son Henry I of England have recently reincarnated as Paramhansa Yogananda spiritual master and author of the classic Autobiography of a Yogi and his close disciple Swami Kriyananda and if so what are the subtle connections between the Norman Conquest and modern times How will these past lives influence our future In *Two Souls Four Lives* Catherine Kairavi describes a society much more primitive than our own in both knowledge and consciousness she depicts the days of William and Henry as having been far more brutal than our own despite the much greater capacity for destruction of modern

weaponry Historians will inevitably object that mankind was the same in William's day as it is today For they are intellectual scholars and there is no aspect of human consciousness more disposed to argument than the intellect It is kept vital and alive after all by argument It will probably be other historians who grow up with this new and broader perspective on their subject Catherine Kairavi devoted ten years carefully researching for this book For the rest maybe Paramhansa Yogananda's statement that he himself was William could outweigh for many readers any doubts and challenges that may be presented to disprove certain statements in this book It is a completely new take on present and future trends in modern society

consciousness the product of collective unconsciousness Davide Appi, 2022-10-29 CONSCIOUSNESS OR SUPERCONSCIOUSNESS THIS IS THE DILEMMA The present society continues to run like a mad elephant toward global catastrophe Why do we continue on this road that leads us to a dead end with end view our own self destruction The answer to this question lies in human consciousness itself the cause of every problem while Superconsciousness is the solution to every difficulty What is the difference between consciousness and Superconsciousness Superconsciousness consciously connects us with everything that exists and to understand it better we can make the analogy of a network everything in existence is like a node that can have the illusion of being separate from the rest of the network Most people are like that they feel like a node separated from the rest like a single individual separated from the rest of Humanity This feeling of separation is the mode in which consciousness operates CONSCIOUSNESS OR SUPERCOSCIENCE THAT IS THE DILEMMA The present society continues to run like a mad elephant toward global catastrophe Why do we continue on this road that leads us to a dead end with end view our own self destruction The answer to this question lies in human consciousness itself the cause of every problem while Superconsciousness is the solution to every difficulty What is the difference between consciousness and Superconsciousness Superconsciousness consciously connects us with everything that exists and to understand it better we can make the analogy of a network everything in existence is like a node that can have the illusion of being separate from the rest of the network Most people are like this feeling like a knot separated from the rest like a single individual separated from the rest of Humanity This feeling of separation is the mode in which consciousness operates So it is normal for a world dominated by consciousness to be in perpetual conflict consciousness can only do so much by being a principle of division and separation And as long as it is the same that decides both our personal and Humanity s fate we will always be at risk of self destruction We can even say The very nature of consciousness directed toward separation and competition can only inevitably lead us into conflict with others It is the very nature of ordinary consciousness that leads us to violence and war Superconsciousness knows that it is both the node and the global network itself at the same time so it knows that it is deeply connected and interconnected to the Whole while consciousness thinks it is a node unto itself separate from the rest of the network Superconsciousness thus opens us to a wider reality than that of ordinary consciousness and we get a taste of it in moments of deep Inner Peace when the silent mind allows us to enjoy to the fullest the spectacle of the present moment Why is consciousness on the world s bridge of command and Superconsciousness all but ignored Superconsciousness is something unpredictable and original capable of subverting the established order The emergence on this planet of a minimum sufficient number of awakening Superconsciousnesses is the greatest nightmare for the system and for the Anti Awakening Dark Powers that rule the world This is the problem the ruling elites do not want Superconsciousness awakening because it would put an end to their millennial earthly Power Only by electing Superconsciousness as the Supreme Commander of human life will it be possible to change human destiny and put the extraordinary scientific progress

implemented by consciousness no longer at the service of consciousness itself in command which we might rather describe as unconsciousness ruling the world but to put technological progress at the service of Superconsciousness the only one capable of fostering development that is healthy sensible and truly aimed at the welfare of H Translator Nikkita PUBLISHER TEKTIME

D. T. Suzuki on the Unconscious in Zen Art, Meditation, and Enlightenment Steve Odin, 2025-07-01 A comprehensive study of D T Suzuki's Zen philosophy and philosophical psychology in relation to his Buddhist understanding of the cosmic Unconscious This book explores how the Japanese philosopher D T Suzuki 1870-1966 developed an integral synthesis of Eastern and Western sources to establish a modern philosophical psychology of the cosmic Unconscious which he in turn used as the basis to interpret every aspect of Zen art meditation and enlightenment Beyond Freud's personal unconscious and Jung's collective unconscious according to Suzuki is the cosmic Unconscious of Zen which as absolute nothingness is the fountain of inexhaustible creative potentialities and the source of all Zen inspired arts The book demonstrates that like the Kyoto School of modern Japanese philosophy Suzuki's Zen endeavors to overcome the existential problem of nihilism or relative nothingness by shifting to the openness of absolute nothingness wherein emptiness is fullness and all things are disclosed in the evanescent beauty of their suchness Suzuki however formulates his scheme in terms of a depth psychology where the cosmic Unconscious is the encompassing locus of absolute nothingness Ultimately the book argues that by integrating both Eastern and Western views of the unconscious psyche including the different schools of Zen and Mahayana Buddhism as well as American French and German theories of the unconscious Suzuki's Zen concept of the cosmic Unconscious constitutes a significant original contribution to philosophical psychology

Religion in the New Age Swami Kriyananda,2009-03-16 That we live in a New Age seems an incontestable fact Just 100 years ago the world had no paved highways no speeding cars airplanes cell phones washing machines computers or satellite dishes to name only a few things that today we take for granted But the greatest change that has occurred has been our perception of reality which began with the discovery that matter is actually composed only of vibrations of energy and that energy is the reality behind everything around us Today we perceive everything in terms of energy we have become an energy conscious as well as an energy dependent society In this collection of fascinating essays on a variety of topics Swami Kriyananda a renowned and prolific writer presents an approach to modern life that may seem radically new The book s title essay Religion in the New Age shares the ancient teaching common to many cultures that time is cyclical and that we are now in an upward cycle coming into an age of energy awareness from a darker age of matter The author shows society political and social events and

religion and religious institutions from the viewpoint of different cycles of time
