the jh nas as altered states of consciousness absorptions that do not reveal anything about the nature of phenomena is incompatible with the teachings of the P li Nik yas By carefully analyzing the descriptions of the four jh nas in the early Buddhist texts in P li their contexts associations and meanings within the conceptual framework of early Buddhism the relationship between this central element in the Buddhist path and insight meditation becomes revealed in all its power Early Buddhist Meditation will be of interest to scholars of Buddhist studies Asian philosophies and religions as well as Buddhist practitioners with a serious interest in the process of insight meditation
