Screening Sandy Hook Deanna Spingola, 2015-02-03 Most parents would never consider dispensing deadly addictive street drugs to their children but if a trusted physician writes a prescription for an FDA approved schedule 2 medication for their two year old based on some questionable mental health screening those unwary parents do not question or object Despite side effect warnings regularly revealed during TV ads parents frequently fail to take those warnings seriously perhaps presuming that the side effects are happenstance or rarely occur Over the decades because organized psychiatry represented by the American Psychiatric Association APA convened numerous consensus panels that designed hundreds of non biologically based disorders for its Diagnostic and Statistical Manual of Mental Disorders DSM especially suitable for the pill for every ill pharmaceutical industry that conceivably already had many profitable solutions for the disorders in the pre production process The consequences have been disastrous with no discernable end in sight some people taking prescription drugs or withdrawing from them have perpetrated school mall and public shootings That is in addition to thousands of suicides that the public never hears about unless the victim is a well known public figure like Robin Williams Just the military related

suicide rate is 8 000 per year untold numbers of these are the result of the psych drug cocktails doled out by psychiatrists working for the VA The government is big pharma's largest customer In addition to the homicides and suicides irreversible brain damage results from drug remedies to temporary problems that might have been easily resolved through compassionate interaction and talk therapy Despite the claims that drugs were not a factor in the Sandy Hook mass murders certain circumstances provide a different picture Adam Lanza always a unique individual changed from being a geeky weird kid to being a mass murderer not of people his own age but of beautiful vulnerable children feeling secure in their classrooms in a sleepy bedroom community in Connecticut
