conceptualisations of media and the consequences of technological affordances for the development of media production and consumption There is a particular focus on the ways in which contemporary media contexts complicate and challenge traditional media models and offer new and unique ways of approaching discourse in these contexts Consciousness Harry Knox,2023-02-22 In the arena of psychology no branch is more bizarrely named than NLP neuro linguistic programming It doesn't trip off the tongue and the meaning is how shall we say opaque One definition of NLP is that it's the study of excellence Another is that it's an approach to communication and personal development Another is that it's about how people organize their thinking and language and how this affects behavior NLP doesn't seem to have a clear cut definition and is often branded a pseudoscience It still hasn't achieved mainstream recognition in psychology A significant difficulty lies in the term itself What on earth does neuro linguistic programming mean It seems like something extremely technical difficult and scientific rather than a practical means of helping people to lead better and more effective lives as its proponents claim Amazingly the term neuro linguistic programming is ideal for something that seems drastically different from NLP but is the exact reason why NLP works Neuro linguistic programming is in fact the perfect way to describe the most baffling phenomenon of all consciousness It should become the standard way of referring to consciousness It involves all the key ingredients 1 the nervous system neuro 2 language linguistics and 3 programming how we program our neural network with language to allow us to use consciousness a new acquired cultural operating system to override programmed instincts the old biological operating system Humans aren't born conscious They become conscious as they learn language Human thought is not conducted biologically it is conducted via language something we were not born with and hence cannot by definition be part of our biology Consciousness is a humanly acquired new operating system a cultural not biological operating system It has nothing at all to do with Darwinism with selfish genes with random genetic mutations with the laws of atoms Consciousness gives us an initial level of programming and there's then nothing to stop us improving our consciousness expanding our consciousness refining our consciousness altering our consciousness all in the name of ultimately optimizing our consciousness so that we can lead the best lives of which we are capable It wasn't Darwinism that brought about a phase change in human evolution It was language Come inside and find out all about it The Pragmatics of Humour in Interactive Contexts Esther Linares Bernabéu,2023-05-15 Recent years have seen a burgeoning interest in interactional humour from social and pragmatic perspectives with fascinating results Released more than a decade later than Norrick and Chiaro 2009 *Humor in Interaction* *The Pragmatics of Humour in Interactive Contexts* gathers some of the most recent work on humour in interaction with contributions taking meta pragmatic approaches to the analysis of various genres of interactive humour in both online and offline settings This volume illustrates that a range of methodologies and perspectives can be applied to the study of such a complex phenomenon These include analyses with a cognitive orientation and with multimodal approaches work based on Relevance Theory the General Theory of Verbal Humour and Conversation Analysis

among others In addition all the authors represented here are recognised experts on the subject and in most cases are leading specialists in their respective fields The book can be of use not only to scholars who study the linguistics of humour in interaction but also to students who wish to pursue research in the area

Memes and the Future of Pop Culture Marcel Danesi, 2019-02-11 Pop culture emerged in the first decades of the twentieth century as a reaction to the restrictive social traditions of colonial America It spread quickly and broadly throughout the bustling urban centers of the 1920s an era when it formed a partnership with technology and the business world This coalition gave pop culture its identity allowing it to thrive and form alliances with artistic and literary movements But pop culture may have run its course with the rise of meme culture This publication revisits the social psychic and aesthetic roots of pop culture suggesting that meme culture has fragmented its historical flow thus threatening to bring about its demise

Political Marketing Kostas Gouliamos, Antonis Theocharous, Bruce I. Newman, 2013-11-12 A guiding principle in creating Political Marketing has been to examine the ways in which culture politics and society interrelate in the field of political marketing In the course of the book the editors and contributors consider culture as a distinctive concept with transformative capacities that need further and deeper development in the engineering of the political marketing process This may be introduced and consequently lead to broad formulation of a campaign culture Indeed understanding and adapting a broader campaign culture political marketing models may be seen as sets of pathways of key resources resulting viability in human assets forms of influence class stratification alternative flows of information or networking and intercultural knowledge sharing activity This book consists of 18 chapters which deal with aspects of political marketing and campaign culture Theoretical chapters are found first followed by two chapters that deal with theoretical issues which became a subject of research Next presented are the articles that study aspects of electoral behavior followed by the papers that analyze aspects of nationalism national identity Finally the book concludes with three case studies on various issues in political marketing

Digital Populism and the Use of Neo-Propaganda and Fake News Vieira, Andreia Teles, Joaquim, Ana Filipa, Duarte, Alexandre, 2025-05-07 As populism grows across global democracies the integration of new technologies has significantly amplified the use of propaganda techniques and the spread of fake news Tools like social media and artificial

intelligence AI make digital technologies privileged vehicles for populist communication Due to the use of fallacies propaganda is confused with fake news though these techniques are broader and based on political strategies to manipulate public opinion With the advent of new technologies and the ever increasing incorporation of AI into social life political parties are facing a form of two way communication without intermediaries meaning they can directly reach and influence the public with reduced costs Understanding the social impact of digital propaganda may help foster political literacy among civil society Digital Populism and the Use of Neo Propaganda and Fake News explores various populist parties aiming to identify and understand their use of propaganda and fake news It provides a comprehensive global vision of populism in different nations and examines the communication strategies based on propaganda and disinformation Covering topics such as social media computational propaganda and political rhetoric this book is an excellent resource for political analysts journalists sociologists government officials policymakers researchers academicians and more

Stance-Taking in Embodied and Virtual Interaction Geert Brône, Kurt Feyaerts, Elisabeth Zima, Silva H. Ladewig, 2025-08-28 A fundamental property of human language is its ability to simultaneously represent subjects objects or events and express the speaker's stance towards these representations The notion of stance taking involves a positioning along three different axes epistemic the distribution of knowledge e.g. by expressing certainty or uncertainty affective the expression of attitudes and feelings and deontic the expression of desirability or necessity of an action Psycho linguistics and neighboring fields have a long track record in the study of stance taking as a socially contextualized and recognized interpersonal phenomenon focusing on the lexical and grammatical resources that language users have at their disposal to communicate stance but also on the cognitive processes underlying this positioning In addition the phenomenon has been studied extensively in different communicative settings from spontaneous face to face communication to institutional and mediated forms of interaction from different disciplinary angles Interactional Linguistics Ethnomethodology Cognitive Psychology HCI Research etc. and using different empirical methods from controlled experiments to qualitative and quantitative corpus analysis
