Art Therapy

Treatment with Sex Trafficking Survivors Mary K. Kometiani, 2019-10-16 This groundbreaking book introduces and researches art therapy as a creative and effective treatment for the sensitive and pertinent issue of human sex trafficking. Rich empirical examples and best practices are provided through the contributors' expertise and knowledge in the field of art therapy. Art therapy facilitates emotional catharsis, a personal sense of worth and empowerment through making choices, supports connection to others, and the inner self resolves trauma, grief, and shame, and provides hope for the future and recovery. This book explores art therapy interventions and outcomes through detailed case studies for sex trafficking survivors in the United States, India, and Nepal, and includes international recommendations for survivor treatment and recovery, as well as staff support programming. Professional helpers and learners from mental health, social services, medical care, and those who work with trafficking and sexual abuse survivors will benefit from this guide. **ART THERAPY WITH**

CHRONIC PHYSICALLY ILL ADOLESCENTS: Exploring the Effectiveness of Medical Art Therapy as a Complementary Treatment Ruth R. Luginbuehl-Oelhafen, 2009 Art Therapy with Chronically Ill Adolescents explores the effectiveness of art therapy as a primary intervention with an adolescent population with chronic physical illness. In this particular case, with adolescents in chronic renal failure, either on hemodialysis, peritoneal dialysis, or after kidney transplantation, the hypothesis is that art therapy 1) facilitates expression of emotions through artwork, ideally including verbal expression; 2) enhances self-esteem and identity; 3) helps them cope with their chronic physical illness; and 4) finally offers an opportunity to vent anger and frustration, catharsis. By getting a safe place to explore issues related not only to the developmental stage but also to the conditions of chronic physical illness, these teenagers may begin to discover their individual strengths through art therapy rather than dwell primarily on their individual weaknesses. In essence, the book will explore whether art therapy can be a means by which this population could be helped to accept and integrate their chronic physical conditions into their lives and to find an appropriate place in our society. In addition, the book will investigate whether art therapy could become a sanctuary, one in which the patient is allowed to keep control, to make his own decisions, and to explore and develop a sense of freedom in an overwhelming, controlling environment. Consisting of four chapters, Chapter 1 provides an in-depth perspective on literature review and adolescence as a developmental stage. The psychological impact of chronic physical illness in adolescence, creativity, and art therapy, medical art therapy, and the creative process is discussed. Chapter 2 studies methodology, independent variables, settings, procedures, materials used, and the gathering of data. Chapter 3 addresses case histories, their artwork, the short-term treatment group, and the long-term treatment group. Seven clients and examples of their artwork are presented. Chapter 4 discusses results, conclusions, and ideas for further studies. **Handbook of Art Therapy** Cathy A. Malchiodi, 2011-11-30 Providing a complete overview of art therapy from theory and research to practical applications, this is the definitive handbook in the field. Leading practitioners demonstrate the nuts and bolts of arts-based intervention with children, adults, families, couples, and groups dealing with a wide range of

clinical issues Rich with illustrative case material the volume features 110 sample drawings and other artwork The inclusion of diverse theoretical approaches and practice settings makes the Handbook eminently useful for all mental health professionals interested in using art in evaluation and treatment New to This Edition Incorporates the latest clinical applications methods and research Chapter on art materials and media including uses of new technologies Chapters on intervening with domestic violence survivors bereaved children and military personnel Expanded coverage of neuroscience cultural diversity and ethics
