History of the Church in the Philippines, 1521-1898 Pablo Fernandez, 1979 *Colonialism and Culture* Nicholas B. Dirks, 2025-10-01

Colonialism and Culture edited by Nicholas B. Dirks is an insightful exploration of the intricate relationship between colonialism and cultural transformation. The book features contributions that reflect how colonialism reshaped cultural identities and expressions across the globe and how it remains a potent force defining both historical and contemporary landscapes. Drawing on cases from different historical periods and geographic locations, the essays examine how colonial powers imposed and justified their dominance through cultural means such as transforming local cultures into rigid categories of the other. The impact of this cultural hegemony extended beyond the local to influence metropolitan societies, altering notions of race, nationality, and power even in the colonizers' homelands. Essays delve into various aspects such as the role of missionary work in the Philippines, peasant resistance in Southeast Asia, labor practices in colonial Kenya, and the conceptualization of time and development in colonial India. The work encourages a reconsideration of colonialism not just as a historical occurrence but as an active component in the configuration of modern cultural and social institutions. Engaging with the intersection of power and culture, the book challenges readers to rethink traditional narratives of empire and its legacy, offering new insights into the ongoing global implications of colonial structures. *The British Library general catalogue of printed books to 1975* British Library, 1985

Numbers and Units in Old Tagalog Jean-Paul G. POTET, 2016-04. No doubt this book will meet the demand of historians, linguists, mathematicians, numismatists, philippinologists, and tagalists as well as all the readers interested in the unusual. Like the 1992 article on which it is based, this book is the first one in English to broach the difficult subject of numeral expressions in Old Tagalog and the various concepts and measures associated with them. The book is about ten times as long as the article because it comprises a lexicon that deals with gold, money, taxes, usury, units of measurement, etc. Examples are numerous and generally drawn from such classics as the grammar of San Joseph 1610, Pinpin's manual 1610, the dictionaries of San Buenaventura 1613 and Noceda Sanlúcar 1754. 1860. Differently from the majority of publications on Tagalog, all the terms and examples are fully accented according to a precise system developed by the author and explained in an appendix. **The New International Year Book** Frank Moore Colby, Allen Leon Churchill, Herbert Treadwell Wade, Frank H.
