Kommunikatives Handeln und pädagogisches Handeln Jan Masschelein, 1991 **Facing Epistemic Uncertainty**

Roel van Goor, 2012-09-01 Increasing doubts over the narratives that traditionally served to legitimize the tasks and possibilities of societal institutions such as science have also called into question the significance of philosophy to educational thinking Related debates largely concern epistemological issues i e issues regarding the nature and status of scientific knowledge This dissertation takes as its starting point the nowadays hardly controversial idea that all knowledge is to a certain extent uncertain The questions addressed are how this epistemic uncertainty may be intelligibly understood and what consequences can be drawn from such an understanding for the tasks and possibilities of philosophy of education as an academic discipline *Pedagogiek in meervoud*.
