Treasurer,2011-02-08 Overcome fear and adversity in the workplace with courage Courage is the first virtue of leadership success Leaders require courage to make bold decisions even when there are dissenters to say what needs to be said no matter the consequences and to place their trust in those they manage Yet surprisingly despite the central role that courage plays in leadership success until now there have been few training programs devoted solely to building courage in the workplace The Courageous Leadership workshop introduces a new organizational development practice called courage building As a new professional discipline courage building is predicated on the assumption that people perform better when they are behaving courageously than when they are anxious and afraid To be a courage builder however you have to role model courageous behavior This workshop is designed to help you do just that The objectives of this workshop are to Learn about the three different types of courage and when and how to use each Gain insight into your own courage history so that you can use your past to strengthen your future Understand the impact that fear has on personal and organizational
