Enlightened Animals in Eighteenth-Century Art Sarah Cohen, 2021-02-11 How do our senses help us to understand the world This question which preoccupied Enlightenment thinkers also emerged as a key theme in depictions of animals in eighteenth century art This book examines the ways in which painters such as Chardin as well as sculptors porcelain modelers and other decorative designers portrayed animals as sensing subjects who physically confirmed the value of material experience The sensual style known today as the Rococo encouraged the proliferation of animals as exemplars of empirical inquiry ranging from the popular subject of the monkey artist to the alchemical wonders of the life sized porcelain animals created for the Saxon court Examining writings on sensory knowledge by La Mettrie Condillac Diderot and other philosophers side by side with depictions of the animal in art Cohen argues that artists promoted the animal as a sensory subject while also validating the material basis of their own professional practice **Enjoyment** Anna-Teresa Tymieniecka, 2013-03-14 Philosophy art criticism and popular opinion all seem to treat the aesthetics of the comic as lightweight while the tragic seems to be regarded with greater seriousness Why this favouring of sadness over joy Can it be justified What are the criteria by which the significance of comedy can be estimated vis vis tragedy Questions such as these underlie the present selection of studies which casts new light on the comic the joyful and laughter itself This challenge to the popular attitude strikes into new territory relating such matters to the profundity with which we enjoy life and its role in the deployment of the Human Condition In her Introduction Tymieniecka points out that the tragic and the comic might be complementary in their respective sense bestowing modes as well as in their dynamic functions they might both share in the primordial function of promoting the self individualising progress of human existence For the first time in philosophy laughter mirth joy and the like are revealed as the modalities of the essential enjoyment of life being brought to bear in an illumination of the human condition *European Porcelain in The Metropolitan Museum of Art* Jeffrey Munger, Elizabeth Sullivan, 2018-05-09 Porcelain imported from China was the most highly coveted new medium in sixteenth and early seventeenth century Europe Its pure white color translucency and durability as well as the delicacy of decoration were impossible to achieve in European earthenware and stoneware In response European ceramic factories set out to discover the process of producing porcelain in the Chinese manner with significant artistic technical and commercial ramifications for Britain and the Continent Indeed not only artisans but kings noble patrons and entrepreneurs all joined in the quest hoping

Geschichte der dreihundertjährigen Jubelfeier der Königlich. Sächsischen Landesschule St. Afra zu Meissen ... Juli 1843, etc Gustav Flügel, 1844 **The Throne of the Great Mogul in Dresden** Dror Wahrman, 2023-04-25 A masterful deciphering of an extraordinary art object illuminating some of the biggest questions of the eighteenth century The Throne of the Great Mogul 1701 8 is a unique work of European decorative art an intricate miniature of the court of the Mughal emperor Aurangzeb depicted during the emperor's birthday celebrations It was created by the jeweler Johann Melchior Dinglinger in Dresden and purchased by the Saxon prince Augustus the Strong for an enormous sum Constructed like a theatrical set made of gold silver thousands of gemstones and amazing enamel work it consists of 164 pieces that together tell a detailed story Why did Dinglinger invest so much time and effort in making this piece Why did Augustus in the midst of a political and financial crisis purchase it And why did the jeweler secrete in it messages wholly unrelated to the prince or to the Great Mogul In answering these questions Dror Wahrman while shifting scales from microhistory to global history opens a window onto major historical themes of the period the nature of European absolutism the princely politics of the Holy Roman Empire the changing meaning of art in the West the surprising emergence of a cross continental lexicon of rulership shared across the Eastern Hemisphere and the enactment in jewels and gold of quirky contemporary theories about the global history of religion **The Cultural Aesthetics of Eighteenth-Century Porcelain** Michael E. Yonan, 2017-07-05 During the eighteenth century porcelain held significant cultural and artistic importance This collection represents one of the

first thorough scholarly attempts to explore the diversity of the medium's cultural meanings. Among the volume's purposes is to expose porcelain objects to the analytical and theoretical rigor which is routinely applied to painting, sculpture, and architecture, and thereby to reposition eighteenth-century porcelain within new and more fruitful interpretative frameworks. The authors also analyze the aesthetics of porcelain and its physical characteristics, particularly the way its tactile and visual qualities reinforced and challenged the social processes within which porcelain objects were viewed, collected, and used. The essays in this volume treat objects such as figurines representing British theatrical celebrities, a boxwood and ebony figural porcelain stand, works of architecture meant to approximate porcelain visually, porcelain flowers adorning objects such as candelabra and perfume burners, and tea sets decorated with unusual designs. The geographical areas covered in the collection include China, North Africa, Spain, France, Italy, Britain, America, Japan, Austria, and Holland.
