Migration Development And Transnationalization Critical Interventions:

Migration, Development, and Transnationalization Nina Glick Schiller, Thomas Faist, 2010-11-01 The relationship between migration and development is becoming an important field of study yet the fundamentals analytical tools conceptual framework political stance are not being called into question or dialogue This volume provides a valuable alternative perspective to the current literature as the contributors explore the contradictory discourses about migration and the role these discourses play in perpetuating inequality and a global regime of militarized surveillance The assumptions surrounding the asymmetrical transfers of resources that accompany migration are deeply skewed and continue to reflect the interests of the most powerful states and the institutions that serve their interests Those who seek to address the morass of development failure vitriolic attacks on immigrants or sanguine views about migrant agency are challenged by this volume to put aside their methodological nationalism and pursue alternative pathways out of the quagmire of poverty violence and fear that is enveloping the globe

Remittances as Social Practices and Agents of Change Silke Meyer, Claudius Ströhle, 2023-08-31 This open access book explores the transformative effects of remittances Remittances are conceptualized as flows of money objects ideas traditions and symbolic capital mapping out a cross border space in which people live work and communicate with multiple belongings By doing so they effect social change both in places of origin and destination However their power to improve individual living conditions and community infrastructure mainly results from global inequality Hence we challenge the remittance mantra and go beyond the migration development nexus by revealing dependencies and frictions in remittance relations Remittances are thus scrutinized in their effects on both social cohesion and social rupture By highlighting the transformative effects of remittance in the context of conflict climate change and the postcolonial we shed light on the future of transnational society Presenting empirical case studies from Ghana Burkina Faso Sri Lanka New Zealand Turkey Lebanon USA Japan and various European countries as well as historical North America and the Habsburg Empire we explore remittance relations from a range of disciplines including anthropology sociology history design architecture governance and peace studies

Coworking Spaces Agnes Katharina Müller, 2018 Am Beispiel von Berliner Coworking Spaces untersucht Agnes Müller die Raumwirksamkeit einer mobilen und flexiblen Arbeitsgesellschaft Die Zusammenhänge des besonderen Bürokonzeptes mit einer sich ändernden Arbeitswelt dem städtischen Raum und seinen kreativen Milieus sowie Migration und Multilokalität erläutert sie auf drei Maßstabsebenen Hierin zeigt sich dass es sich bei diesen Büros um ein globales heterogenes und schnelllebiges Phänomen handelt Während sich die Büros zunehmend spezialisieren oder auch professionalisieren nehmen sie Einfluss auf das Stadtleben und die Stadtentwicklung

Indian Migrant Organizations Md Mizanur Rahman, Rakesh Ranjan, 2020-06-12 The Indian diaspora is increasingly engaging with the homeland by forming a range of migrant organizations organizations constituting a growing sector of non State actors who engage with the host country and the country of origin in a sustained and profound way Research on migrant

organizations tends to focus only on transnational migrant organizations in host countries Indian Migrant Organizations analyses a set of local and transnational organizations formed by Indian migrants whose activities include mobilizing resources and connections and engaging in numerous development initiatives in India and studies their engagement particularly in the Indian healthcare and education sectors In particular the book discusses how these organizations have evolved what kind of healthcare and educational projects and activities they are carrying out and how such collective efforts are affecting development dynamics in India

Extremism, Society, and the State Giacomo Loperfido, 2021-12-10 Extremism does not happen in a vacuum Rather extremism is a relative concept that often emerges in crisis situations taking shape within the tense and contradictory relations that tie marginal spaces state orders and mainstream culture This collected volume brings together leading anthropologists and cultural analysts to offer a concise look at the narratives symbolic and metaphoric fields related to extremism systematizing an approach to extremism and placing these ideologies into historical political and geo systemic contexts

Security and Development John-Andrew McNeish, Jon Harald Sande Lie, 2010-11-01 Since 9 11 ideas of security have focused in part on the development of ungovernable spaces Important debates are now being had over the nature impacts and outcomes of the numerous policy statements made by northern governments NGOs and international institutions that view the merging of security with development as both unproblematic and progressive This volume addresses this new security development nexus and investigates internal institutional logics as well as the operation of policy its dangers resistances and complicity with other local and national social processes Drawing on detailed ethnography the contributors offer new vantage points to understand the workings of multiple intersecting and conflicting power structures which whilst local are tied to non local systems and operate across time This volume is a necessary critique and extension of key themes integral to the security development nexus debate highlighting the importance of a situated and substantive understanding of human security

Democracy's Paradox Bruce Kapferer, Dimitrios Theodossopoulos, 2019-04-02 Does populism indicate a radical crisis in Western democratic political

systems Is it a revolt by those who feel they have too little voice in the affairs of state or are otherwise marginalized or oppressed Or are populist movements part of the democratic process Bringing together different anthropological experiences of current populist movements this volume makes a timely contribution to these questions Contrary to more conventional interpretations of populism as crisis the authors instead recognize populism as integral to Western democratic systems In doing so the volume provides an important critique that exposes the exclusionary essentialisms spread by populist rhetoric while also directing attention to local views of political accountability and historical consciousness that are key to understanding this paradox of democracy

Transnational Migration and Human Security

Thanh-Dam Truong,Des Gasper,2011-06-07 The volume places the migration development security nexus in the field of transnational studies Rather than treating these three categories as self evident the essays excavate aspects of power and privilege built into their governing frameworks and conflicting rationales apparent in practices of control Bringing together diverse experiences and case studies the volume highlights the problematic nature of maintaining distinct and disconnected frameworks of governance It argues for a new approach that demonstrates the significance and usefulness of comparative ethics in conceptualising migration from a human centered and gendered perspective in order to address the multi faceted

and multi dimensional nature and meanings of security Becoming a Migrant Worker in Nepal Hannah Uprety,2022-09-01 High profile events such as the 2022 FIFA World Cup in Qatar have made one thing abundantly clear Much of today s economic growth would be unthinkable without the low wage employment of migrant workers But which cultural economic and political infrastructures in the source countries make these types of migration possible in the first place Based on multi sensory ethnographic research in Nepal Hannah Uprety retraces the practices of recruitment and instruction that step by step transform Nepali labor into an internationally marketable commodity In doing so she uncovers a migration regime that effectively turns local men and women into migrant workers before they even leave the country Bildung in transnationalen Räumen Almut Küppers,Barbara Pusch,Pinar Uyan Semerci,2015-08-18 Die Bedeutung des transnationalen deutsch t rkischen Raumes w chst und parallel dazu das Interesse an seiner Erforschung Bildungsinstitutionen sind ein Teilaspekt der fortschreitenden Transnationalisierung Die AutorInnen diskutieren inwiefern deutsche t rkische und deutsch t rkische Bildungsinstitutionen zum Aufbau von transnationalem Bildungskapital Sprach Fach Landes und Kulturkenntnisse beitragen Er ffnet die Verortung in transnationalen R umen Schulen und Universit ten im Zeitalter von Globalisierung und Migration neue M glichkeiten der Profilbildung Erleichtert dies den Umgang mit Heterogenit t Ausgehend von deutsch t rkischen Beispielen werden Denkanst e geliefert die auf andere transnationale R ume bertragbar sind **The Global Life of Austerity** Theodoros Rakopoulos,2018-06-18 Austerity and structural adjustment programs are just the latest forms of neoliberal policy to have a profoundly damaging impact on the targeted populations Yet as the contributors to this collection argue the recent austerity related European crisis is not a breach of erstwhile development schemes but a continuation of economic policies Using historical analysis and ethnographically grounded research this volume shows the similarities of the European conundrum with realities outside Europe seeing austerity in a non Eurocentric fashion In doing so it offers novel insights as to how economic crises are experienced at a global level **Crypto Crowds** Matan Shapiro,2024-03-15 Ownership of cryptocurrencies features contrasting forms of mobilization On one hand it denotes association with a global crowd of unrelated individual investors which expands as it attracts more members On the other hand it includes participation in grassroots communities which are generally more insular Crypto Crowds demonstrates how this tension generates political economic and moral realities in different cultural and geographical contexts Pioneering in its approach to cryptocurrency trading this volume will inspire scholars interested in the sociality of decentralized business models boom and bust cycles on the blockchain libertarian utopias and other postmodern crowding phenomena **War, Technology, Anthropology** Koen Stroecken,2011-12-01 Technologies of the allied warfare in Iraq and Afghanistan such as remote controlled drones and night vision goggles allow the user to virtualize human targets This coincides with increased civilian casualties and a perpetuation of the very insecurity these technologies are meant to combat This concise volume of research and reflections from different regions across Asia the Middle East Latin America and Africa observes how anthropology

operates as a technology of war It tackles recent theories of humans in society colluding with imperialist claims including anthropologists who have become involved professionally in warfare through their knowledge of cultures renamed as human terrain systems The chapters link varied yet crucial domains of inquiry from battlefields technologies military driven scientific policy and economic warfare to martyrdom cosmology shifts media coverage of distant wars and the virtualizing techniques and war porn soundtracks of the gaming industry **The Event of Charlie Hebdo** Alessandro

Zagato,2015-09-01 The January 2015 shooting at the headquarters of satirical magazine Charlie Hebdo in Paris and the subsequent attacks that took place in the le de France region were staggeringly violent events They sparked an enormous discussion among citizens and intellectuals from around Europe and beyond By analyzing the effects the attacks have had in various spheres of social life including the political ideology collective imaginaries the media and education this collection of essays aims to serve as a contribution as well as a critical response to that discussion The volume observes that the events being attributed to Charlie Hebdo go beyond sensationalist reports of the mainstream media transcend the spatial confines of nation states and lend themselves to an ever expanding number of mutating discursive formations **Moral Anthropology**

Bruce Kapferer,Marina Gold,2018-04-13 A development in anthropological theory characterized as the moral turn is gaining popularity and should be carefully considered In examining the context arguments and discourse that surrounds this trend this volume reconceptualizes the discipline of anthropology in a radical way Contributions from anthropologists from around the world from different theoretical traditions and with expertise in a multiplicity of ethnographic areas makes this collection a provocative contribution to larger discussions not only in anthropology but the social sciences more broadly

Transnational Perspectives on Modern Irish History Niall Whelehan,2014-10-03 This book explores the benefits and challenges of transnational history for the study of modern Ireland In recent years the word transnational has become more and more conspicuous in history writing across the globe with scholars seeking to move beyond national and local frameworks when investigating the past Yet transnational approaches remain rare in Irish historical scholarship This book argues that the broader contexts and scales associated with transnational history are ideally suited to open up new questions on many themes of critical importance to Ireland s past and present They also provide an important means of challenging ideas of Irish exceptionalism The chapters included here open up new perspectives on central debates and events in Irish history They illuminate numerous transnational lives follow flows and ties across Irish borders and trace networks and links with Europe North America the Caribbean Australia and the British Empire This book provides specialists and students with examples of different concepts and ways of doing transnational history Non specialists will be interested in the new perspectives offered here on a rich variety of topics particularly the two major events in modern Irish history the Great Irish Famine and the 1916 Rising *Diaspora and Transnationalism* Rainer Bauböck,Thomas Faist,2010 Diaspora

transnationalism are widely used concepts in academic political discourses Although originally referring to quite different

phenomena they increasingly overlap today Such inflation of meanings goes hand in hand with a danger of essentialising collective identities This book analyses this topic
