Ranked 12 on ESPN's 2018 World Fame 100 list of popular athletes, thirty-seven-year-old Serena Williams is the only female in the top 20 and she's one of the highest paid athletes in the world. The face of women's tennis for the past two decades, Serena is now waging battles on multiple fronts against age, injuries, and opponents almost twenty years her junior, all while juggling her responsibilities as a new mom. *Seeing Serena* is an in-depth chronicle of Serena Williams' return to tennis after giving birth to her daughter and an insightful cultural analysis of the most consequential female athlete of her time. Author Gerald Marzorati shadows her through her 2019 season from Melbourne and the Australian Open to Roland Garros and Wimbledon and on to the US Open as she seeks her 24th Grand Slam singles title. He writes about her tennis and her forays into fashion, investing, and developing her personal brand on social media. *Seeing Serena* illuminates Williams's singular status as the greatest women's tennis player of all time and in a moment when race and gender are the most talked-about topics in America and beyond. A pop icon like no other, Marzorati is on the scene observing her matches and talking to her, her coach, her competitors, and former greats who have witnessed her for years. He observes her, listens to her, studies her, explores her roles in society and history, sees Serena fully in all the ways she has come to matter.

WTF? Tim O'Reilly, 2017-10-10. Can we master the technologies we create before they master us? A punchy and provocative assessment by one of Silicon Valley's sharpest observers. Financial Times. WTF can be an expression of amazement or of dismay, and today's technology elicits both reactions. In this book, Tim O'Reilly, dubbed the Oracle of Silicon Valley by Inc magazine, explores the upsides and potential downsides of today's WTF technologies. What is the future when an increasing number of jobs can be performed by intelligent machines instead of people, or done only by people in partnership with those machines? What happens to our consumer-based societies, to workers, and the companies that depend on their purchasing power? Is income inequality and unemployment an inevitable consequence of technological advancement, or are there paths to a better future? What will happen to business when technology-enabled networks and marketplaces are better at deploying talent than traditional companies? How should companies organize themselves to take advantage of these new tools? What's the future of education when on-demand learning outperforms traditional institutions? How can individuals adapt and retrain? Will the fundamental social safety nets of the developed world survive the transition, and if not, what will replace them? O'Reilly is the man who can really make a whole industry happen, according to former Google CEO Eric Schmidt, and for decades he's identified and helped shape our response to emerging technologies, with world-shaking potential from the World Wide Web to Big Data and AI. Here he shares the techniques he's used at O'Reilly Media to anticipate innovation waves and provides a framework for thinking about how current innovations are changing the nature of business, education, government, financial markets, and the economy as a whole. He helps us understand how the parts of digital businesses work together to create marketplace advantage and customer value, and why ultimately they

cannot succeed unless their ecosystem succeeds along with them O Reilly exhorts businesses to DO MORE with technology rather than just using it to cut costs and enrich their shareholders Robots are going to take our jobs they say O Reilly replies Only if that s what we ask them to do Technology is the solution to human problems and we won t run out of work till we run out of problems Whether technology brings the WTF of wonder or the WTF of dismay isn t inevitable It s up to us A compelling narrative of how technology interweaves with the real world If it can cajole even a few tech titans to dwell on the social and political impact of what they do then it will have served a useful purpose Financial Times WTF is a book about technology as it was as it is and as it could be It is told from the perspective of someone who has been personally present at the most important moments in the fast paced history of tech and who played a significant role in those moments Please do read this book Cory Doctorow Boing Boing *Finding Your People* Alexandra Hourigan, Sally McMullen, 2024-06-04 A relatable guide to finding keeping and saying goodbye to friendships from the twin flame hosts of the hit podcast Two Broke Chicks Despite living in a world where instant communication is at our fingertips it sometimes feels harder than ever to make meaningful connections There s an overwhelming focus on romantic partners but frankly we re sick of platonic relationships missing out on the hype Friendships are some of the most significant relationships you ll ever have and navigating conflict miscommunication and new life phases is part and parcel of holding on to really good mates After seven years in an unholy union as best friends twin flames and platonic soulmates Sal and Al from Two Broke Chicks share what they ve learned to help you find keep and say goodbye to the friendships in your life Whether you re struggling to balance your social life worried your pals don t like your new partner unsure how to deal with that toxic friend or simply at a loss as to how to make friends as an adult consider this book your brand new bestie This book is a tonic Al and Sal masterfully centre friendship and navigate the complexities of platonic love in all of the ways it deserves to be valued and seen Hannah Ferguson author of Bite Back Feels like you re having a convo with your bestie over a vino Lucy and Nikki hosts of the Happy Hour with Lucy and Nikki podcast The girls find a way to breakdown friendships in an honest and relatable manner offering real tools to help you have the quality friendships you dream of Alexis Fernandez Preiksa author of The Neuroscience of Self Love The ultimate companion guide for friendship in your 20s 30s and beyond A must read Jemma Sbeg host of The Psychology of Your 20s podcast **Leah on the Offbeat** Becky Albertalli, 2018-04-24 1 New York Times bestseller Goodreads Choice Award for the best young adult novel of the year In this sequel to the acclaimed Simon vs the Homo Sapiens Agenda now a major motion picture Love Simon we follow Simon s BFF Leah as she grapples with changing friendships first love and senior year angst When it comes to drumming Leah Burke is usually on beat but real life isn t always so rhythmic She s an anomaly in her friend group the only child of a young single mom and her life is decidedly less privileged She loves to draw but is too self conscious to show it And even though her mom knows she s bisexual she hasn t mustered the courage to tell her friends not even her openly gay BFF Simon So Leah really doesn t know what to do when her rock solid friend group starts to fracture in
