The M bius Murders Harry Keogh aka the Necroscope has always considered himself a master of the M bius Continuum a dimension existing parallel to all space and time and his personal instantaneous gateway to anywhere in the multiverse But this is hardly overweening conceit on Harry s part for to his knowledge he is not unique two other intelligences with powers similar to his do indeed exist One such is the long dead August Ferdinand M bius himself the German astronomer mathematician and discoverer of the eponymous M bius Strip which led him to explore posthumously his previously conjectural Continuum and the other is Harry s son who has not only inherited his father s mathematical skill but also the metaphysical talent by means of which the Necroscope converses with dead people in their graves Picture Harry s confusion then on returning home via the M bius Continuum from an adventure in Las Vegas as he witnesses however briefly a flailing figure hurtling conscious but uncontrolled through the endless midnight of the Continuum Who could this be how can it be that a helpless silently protesting other is rushing meteor like across the Continuum s Stygian vault Moreover if he hasn t arrived here voluntarily then what vile murderer has sent his victim on this monstrous journey to the end of life itself For Harry is sure that this is neither his son s nor Professor M bius
