Ned Kelly as Memory Dispositif Laura Basu, 2012-12-06 Nineteenth century outlaw Ned Kelly is perhaps Australia's most famous historical figure Ever since he went on the run in 1878 his story has been repeated time and again in every conceivable medium Although the value of his memory has been hotly contested and arguably because of this he remains perhaps the main national icon of Australia Kelly's flamboyant crimes turned him into a popular hero for many Australians during his lifetime and far beyond a symbol of freedom anti authoritarianism anti

imperialism a Robin Hood a Jesse James a Che Guevara Others have portrayed him as a villain a gangster a terrorist His latest incarnation has been as WikiLeaks founder and fellow Australian cyber outlaw Julian Assange Despite the huge number of representations of Kelly from rampant newspaper reporting of the events to the iconic Sidney Nolan paintings to a movie starring Mick Jagger to contemporary urban street art this is the first work to take this corpus of material itself as a subject of analysis The fascinating case of this young outlaw provides an important opportunity to further our understanding of the dynamics of cultural memory The book explains the processes by which the cultural memory of Ned Kelly was made and has developed over time and how it has related to formations and negotiations of national identity It breaks new ground in memory studies in the first place by showing that cultural memories are formed and develop through tangles of relations what Basu terms memory dispositifs In introducing the concept of the memory dispositif this volume brings together and develops the work of Foucault Deleuze and Agamben on the dispositif along with relevant concepts from the field of memory studies such as allochronism colonial aphasia and multidirectionality the memory site especially as developed by Ann Rigney and Jan Assmann's figure of memory Secondly this work makes important headway in our understanding of the relationships between cultural memory and national identity at a time when matters of identity appear to be more urgent and fraught than ever In doing so it shows that national identities are never purely national but are always sub and transnational The Ned Kelly memory dispositif has made complex and conflicting contributions to constructions of national identity Ever since his outlawry the identities invested in Kelly and those invested in the Australian nation have in a two way dynamic fused into and strengthened each other so that Kelly is in many ways a symbol for the national identity Kelly has come to stand for an anti establishment working class subaltern Irish inflected national identity At the same time he has come to represent and enforce the whiteness hyper heterosexual masculinity and violence of Australianness Basu shows that Kelly has therefore always functioned in both radical and conservative ways often both at once a turbulent Janus faced figure Ned Kelly Catherine Lynette Innes, Lyn Innes, 2008 Using the evidence of contemporary sources as well as many subsequent extracts from letters songs books plays films and paintings which feature Ned Kelly this work illustrates the fascination with a man whose short defiant and violent life has been seen as inextricably linked to Australia's landscape and colonial history **Handbook of Autobiography / Autofiction** Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e.g. the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well

as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers

Literary Journalism in Colonial Australia Willa McDonald,2023-09-02 This book traces the beginnings of literary narrative journalism in Australia It contributes to evolving international definitions of the form while providing a glimpse into Australia s early press history and development as a nation The book comprises two parts The first examines the forerunners of literary journalism before and during the establishment of a free press including the letters diaries and journals of the early colonists as well as sketches published in the first magazines and newspapers The book asks if these were reporting when there was no thriving press until well into the 19th century many were written by women and convicts whose voices otherwise went unheard The second part examines the first expressions of literary journalism in forms more recognisable today covering topics as varied as homelessness in Melbourne the Queensland trade in Pacific Islander labour and Australia s involvement in overseas wars particularly the Boer War The resulting cultural history reveals important milestones in the development of Australia s press and literature while demonstrating the concerns unveiled in colonial literary journalism still resonate in Australia in the 21st century

Blue Army Jude McCulloch,2012-11-27 We expect the police to stop armed robbers to arrest drug dealers to keep the peace at demonstrations and to protect us from crime Many of us believe that police officers need to carry guns to protect themselves as well as us But do we want our police forces to become armies Most of us are shocked when suspects are shot dead by police before they can be tried and disturbed to see police wearing riot gear and using baton charges at peaceful demonstrations When police begin using paramilitary tactics the essential nature of their role is redefined switching from protection and peacekeeping to active aggression Some units within our police forces such as the Special Operations Group train with the military and use military weapons and tactics In looking behind the extraordinary number of police shootings in Victoria Blue Army examines how the Special Operations Group and their tactics which are passed on to ordinary police have contributed to the toll Jude McCulloch s involvement as a lawyer in cases of police shootings led her to detailed investigation of changes to policing in Australia Blue Army arises from her research into the paramilitarisation of the police It exposes the risks of allowing Australia s police forces to move away from the key principle of keeping the peace with the use of minimum force Blue Army is a very disturbing book and one of great
