Marine Insurance in the Netherlands

1600-1870 Sabine Go, 2009 Marine insurance has been of great importance to the expansion of long distance trade and economic growth in the early modern period in particular for seafaring nations such as the Dutch Republic The Amsterdam market became Europe's leading insurance market and within the Republic other insurance systems also emerged Little is known about the differing institutional frameworks governing these industries and the interaction between the institutions and the actors in the industry This study examines the development of marine insurance in the Netherlands in Amsterdam Rotterdam and the province of Groningen from c 1600 to 1870 from an institutional point of view It examines how the behavior of authorities insurers underwriters and brokers was affected by the formal and informal constraints of the industry and how in turn their conduct has influenced the institutional framework and induced institutional change Three insurance systems in the Netherlands each with its own distinctive characteristics and the interaction between institutions and actors is examined By examining developments over a period of two and half centuries the path of long term institutional change becomes discernable

Dragend bestaan Ruud Paesie, 2023-08-30 Vanaf de eerste helft

van de zestiende eeuw concentreerde de Baltische graanhandel zich in Amsterdam Daar werd het graan niet alleen door korendragers gelost maar ook in open zakken naar de speciale korenpakhuizen gedragen Daarna droegen zij de zware last via steile ladders naar de bestemde zolderverdieping waar het werd opslagen Aan deze veelal ongeschoolde en loonafhankelijke havenarbeiders heeft Amsterdam in niet geringe mate haar welvaart te danken De graanhandel was immers

de moedernegotie van de stad Net als ambachtslieden waren de Amsterdamse korendragers in een gilde georganiseerd en alleen leden hadden het recht om graan zout en andere bulkgoederen te dragen De corporatie kende geen numerus fixus en het ledental was groot Door de eeuwen heen hebben duizenden leden waaronder veel migranten dit zware en risicovolle sjouwwerk verricht Verder blijkt dat er wel degelijk een directe continuïteit heeft bestaan tussen de vroegmoderne gilden en de hedendaagse vakverenigingen Met deze conclusie kan het langsepende academisch debat over de continuïteitsvraag eindelijk worden gesloten Door niet alleen de organisatie maar ook de individuele leden en de praktijk van het werk van alledag te bestuderen heeft de auteur bovendien een nieuwe dimensie toegevoegd aan de geschiedenis van de arbeid
