The Concise Encyclopedia of Ethics in Politics and the Media Ruth F. Chadwick,2001 With spin often playing an exaggerated role in politics it is sometimes difficult to understand legal and judicial issues apart from their presentations by the media This collection of articles combines discussions of ethical issues within and about the news and entertainment industries with descriptions of similar issues in politics In general the volume explores the theme of freedom versus responsibility It can therefore serve as a resource for the person interested in theories of justice and discrimination as well as the depiction of minorities in the media It s that ability to separate one from the other and then to think analytically about the specific question at issue that lies at the heart of Ethics The book includes 30 articles previously published in the Encyclopedia of Applied Ethics and three new articles commissioned especially for this volume Over half of the previously published articles include updated facts and bibliographic citations New articles include Media Ethics Overview War Reporting and Privacy vs Public Right to Know *Federal Register* ,1977 *Railway News, Finance and Joint-stock Companies' Journal* ,1892 **The Transformation of Southern Politics** Jack Bass,1995 Stressing the relevance of The Transformation of Southern Politics as a background for understanding the South into the next century Jack Bass and Walter De Vries write that the themes of change in southern politics still involve the rise of the Republican Party black political development and the Democratic response to it and the interaction of these forces with social and economic issues The Transformation of Southern Politics examines the post World War II political evolution of the eleven southern states and traces the effects of such influences as Brown v Board of Education the Civil Rights Act of 1964 the Voting Rights Act of 1965 urban migration the growth of the Republican Party and the rise of African Americans in the political landscape Relying on the methodology that V O Key used in his 1949 classic Southern Politics in State and Nation the work draws on interviews with more than 360 politicians scholars journalists and labor leaders and includes a wealth of data on voting trends political perceptions and population flow to present a comprehensive portrait of the region up to the 1976 presidential election In the preface to the Brown Thrasher edition Bass and De Vries offer an overview of the region s current political climate including an analysis of the 1994 mid term elections They also provide excerpts from their interview with Bill Clinton during his first campaign for political office **Roots of Inequality. Political Economy of the US Higher Education System** Kexin Chen,2025-09-22 Master s Thesis from the year 2025 in the subject Politics Region USA grade 1 3 Free University of Berlin John F Kennedy Institute language English abstract The dissertation aims to reveal the root causes of institutional inequality in the US higher education system With the collapse of the American Dream as the realistic background this research raises the question How is inequality institutionally constructed maintained and exacerbated in a seemingly fair and widely expanded higher education system The study focuses on the student loan system a key node as an institutional turning point

in the national transition from public funding to private debt It systematically examines its mechanisms in policy design ideological discourse and class reproduction In theory the dissertation defines inequality as a structural reproduction mechanism emphasizing that the joint action of power institutions and ideology forms it Based on the 3I model ideas institutions interests and introducing lobbying and rent seeking theories an analytical model for understanding institutional bias and interest solidification is constructed In terms of methods the dissertation combines process tracking case study discourse analysis and logistic regression to conduct a multi level analysis of the federal government s student loan policy from 2010 to 2024 The study finds that inequality in the US higher education system is mainly reflected in four mechanisms exclusion of public participation ideological hegemony class differentiation and the institutional lock in effects Together these mechanisms constitute a structural encirclement of public resources by government and capital which conceals the true face of structural institutional inequality Ultimately it points out that the inequality does not stem from the coincidental governance or policy failure instead it is the product of the inherent contradictions of the democratic capitalist system To break through the institutional dilemma the study suggests a political resistance normativity based on Marx s concept of free and fully developed individuals and the reconstruction of political imagination

Exodus R. J. Rushdoony, 2009-11-23 Essentially all of mankind is on some sort of exodus However the path of fallen man is vastly different from that of the righteous Apart from Jesus Christ and His atoning work the exodus of a fallen humanity means only a further descent from sin into death But in Christ the exodus is now a glorious ascent into the justice and dominion of the everlasting Kingdom of God Therefore if we are to better understand the gracious provisions made for us in the promised land of the New Covenant a thorough examination into the historic path of Israel as described in the book of Exodus is essential
