Nederlandsch-Engelsche Samenwerking In De Spaansche Wateren 1625 1627:

Nederlandsch-Engelsche samenwerking in de Spaansche wateren, 1625-1627 H. Winkel-Rauws, 1946 **The Dutch Navy of the Seventeenth and Eighteenth Centuries** Jaap R. Bruijn, 2017-10-18 This book is a reprint of Jaap R Bruijn's 1993 book *The Dutch Navy* which offers an English language overview of the history of the Dutch Navy in the seventeenth and eighteenth centuries It is divided into three chronological periods the old new and second rate navy Rather than presenting a history of naval conflict this volume approaches Dutch naval history from the following four angles operations administration officer duties and sailor duties It consists of a series foreword a new introduction detailing recent developments in naval historiography the original introduction providing a history of Dutch maritime history from the middle ages to the beginning of the seventeenth century a conclusion and a bibliography and index It explores the astounding amount of naval power belonging to such a sparsely populated nation plus the rapid rates of success and decline It confirms that the Dutch navy with its logic innovation and missteps alike provides an excellent case study of both the development of European bureaucracy and armed forces in the Early Modern period **The Dutch in the Caribbean and on the Wild Coast 1580-1680** Cornelis CH. Goslinga, 2018-02-26 The books in the Florida and the Caribbean Open Books Series demonstrate the University Press of Florida's long history of publishing Latin American and Caribbean studies titles that connect in and through Florida highlighting the connections between the Sunshine State and its neighboring islands Books in this series show how early explorers found and settled Florida and the Caribbean They tell the tales of early pioneers both foreign and domestic They examine topics critical to the area such as travel migration economic opportunity and tourism They look at the growth of Florida and the Caribbean and the attendant pressures on the environment culture urban development and the movement of peoples both forced and voluntary The Florida and the Caribbean Open Books Series gathers the rich data available in these architectural archaeological cultural and historical works as well as the travelogues and naturalists sketches of the area in prior to the twentieth century making it accessible for scholars and the general public alike The Florida and the Caribbean Open Books Series is made possible through a grant from the National Endowment for the Humanities and the Andrew W Mellon Foundation under the Humanities Open Books program *Bibliografie der geschiedenis van Nederland* H. de Buck, E.M. Smit, **Warfare at Sea, 1500-1650** Jan Glete, 2002-01-04 *Warfare at Sea 1500 1650* is the first truly international study of warfare at sea in this period Commencing in the late fifteenth century with the introduction of gunpowder in naval warfare and the rapid transformation of maritime trade *Warfare at Sea* focuses on the scope and limitations of war before the advent of the big battle fleets from the middle of the seventeenth century The book also compares the social history of seamen and the early officer corps in several European countries and includes discussion on Spain Portugal France Venice the Ottoman Empire and the Baltic states *Asian Trade and European Influence* M. A. P. Meilink-Roelofs, 2013-11-11 Now that this study is completed and I wish to make due acknowledgment to all those who have

in any degree contributed towards its realization my thoughts turn in the first place to the one to whom this book is dedicated It is a great grief to me that he who took such an intense interest in my work has not lived to see its conclusion It was he who in the beginning urged me to venture upon this course of study and whose encouragement helped me in moments of despondency The high standard which with his keen and critical judgment he set for his own work was an example to me and I shall strive to maintain it in my future studies Not only did he help me to lay the foundation of my knowledge of archive science but he was also my guide in a field new to me in many respects that of Asian maritime trade His wide knowledge of medieval European trade in the Baltic area led me to compare and contrast the two worlds of East and West and thus helped me to obtain a deeper insight into the differences and similarities between the various problems involved I am greatly indebted to Prof Dr J M Romein who has followed the progress of my studies with great interest all these years and on whose help and support sometimes in very difficult circumstances I have always been able to rely

Exercise of Arms ,2021-10-25 The great European conflict known as the Thirty Years War was only the final phase of a war in the Netherlands which was to last 80 years In the course of this the Dutch rose up successfully against their Spanish rulers and established a Republic in the early 16th century which was the envy of its contemporaries This volume brings together papers by 11 leading military historians from the Netherlands who discuss the processes by which the Dutch organised and financed the military apparatus which was eventually to defeat the leading land and maritime power of their day and to maintain the position of Holland as a world power until well into the 18th century Articles cover military matters such as changes in strategy and tactics and issues such as the financing of the war effort the navy privateering and the arms trade

The Dutch Republic and the Hispanic World, 1606-1661 Jonathan Irvine Israel,1982 The Dutch Spanish confrontation in the 17th century began as a local insurrection but evolved into the world's first global conflict a conflict that profoundly influenced the relationship between Europe and the Indies as well as the European balance of power and the world economy This is the first study of the conflict and its immediate aftermath Israel reveals the deep and complex divisions between the political elites on both sides and demonstrates the decisive impact of political and military activity on the economic fate of Europe and the wider world
