Negotiating Hostage Crises With The New Terrorists:

Negotiating Hostage Crises with the New Terrorists Adam Dolnik, Keith M. Fitzgerald, 2008 Illuminates the role of negotiation in resolving terrorist barricade hostage crises If one assumes that negotiation is only about bargaining making deals or concessions then of course we should not negotiate with terrorists as this action is likely to ultimately lead to some rewards for their bad behavior However if one understands that negotiation ultimately is the use of communication to exercise influence in order to change someone's thinking behavior and decision making the Negotiating Hostage Crises with the New Terrorists Adam Dolnik, Keith M. Fitzgerald, 2007-11-30 This book is about the role of negotiation in resolving terrorist barricade hostage crises What lessons can be learned from past deadly incidents so that crisis negotiators and decision makers can act with greater effectiveness in the future What are the lessons the terrorists are learning and how will they affect the dynamics of future incidents What can we learn about the terrorist threat and about preventing the escalation of future terrorist hostage taking situations While there are many trained crisis negotiators around the world almost none of them has ever had contact with a terrorist hostage taking incident Further the entire training program of most hostage negotiators focuses on resolving crises that do not take into consideration issues such as ideology religion or the differing sets of strategic objectives and mindsets of ideological hostage takers This is especially true with regard to the terrorists of the new breed who have become less discriminate more lethal and more willing to execute hostages and die during the incident Further many of the paradigms and presumptions upon which the contemporary practice of crisis negotiation is based do not reflect the reality of the new terrorists The main focus of this book is on the detailed reconstruction and analysis of the two most high profile cases in recent years the Moscow theater and the Beslan school hostage crises with a clear purpose of drawing lessons for hostage negotiation strategies in the future This is an issue of top priority Terrorist manuals from countries such as Saudi Arabia and Iraq reveal that terrorist organizations are very closely observing and analyzing the lessons learned from these two incidents suggesting that we are likely to see this type of new terrorist hostage taking involving large numbers of suicide fighters and executions of hostages at some point in the future This raises a wide array of questions about appropriate responses and negotiation strategies From the first glance it is clear that we are not prepared Crisis Negotiations Michael J. McMains, Wayman C. Mullins, 2014-09-19 Leading authorities on negotiations present the result of years of research application testing and experimentation and practical experience Principles and applications from numerous disciplines are combined to create a conceptual framework for the hostage negotiator Ideas and concepts are explained so that the practicing negotiator can apply the principles outlined **Countering New(est) Terrorism** Bruce Oliver Newsome, James W. Stewart, 2017-12-15 How should we analyze and assess new terrorist behaviors What are the particular risks and challenges from new terrorism Should we negotiate with terrorists and if so how When should we use force against terrorists Countering New est Terrorism Hostage Taking Kidnapping and Active Violence

Assessing Negotiating and Assaulting improves our knowledge of new terrorist behaviors and our skills in responding to such attacks. The term new terrorism has been in circulation since the late 90s. This book analyzes the newest terrorism that has emerged in recent years characterized by increased hostage taking, kidnapping and active violence and develops best practices for countering these emerging threats. Along the way it challenges fashionable wishful thinking that all terrorists are open to rational negotiation or de-radicalization that military responses always reflect badly on the official side and that terrorists are not constrained by their own doctrines. The new terrorists are dramatically more ideological, murderous and suicidal. They are generally less reconcilable, less trusting of official negotiators, less likely to release detainees and more likely to kill detainees. They are less likely to demand ransoms yet more likely to release hostages in cases in which they do demand ransom. They are more informed about the official side's policies, tactics, techniques and procedures. They are more likely to use new information and communication technologies against responding agencies and officials. They are more capable fighters; they kill more people despite deploying fewer fighters per hostage. Most disturbing is the fact that they take advantage of free societies to access easier targets.

Features: Includes evidence-based definitions and descriptions of political, religious, Jihadi and new terrorism. Presents the first large-scale comparison of old and new terrorism using an original extension of the Global Terrorism Database (GTD) with added codes for each of 10,735 hostage crises and more than 500,000 data points from 1970 through 2016. Details a further extension of the GTD covering all terrorist events from 2004 through 2016, roughly 5 million data points. Offers prescriptive advice and visual decision trees on how to negotiate crises, assess the risk of terrorism and how and when to assault terrorists. Reviews official practices, interviews with experienced officials and real-world simulations of recent terrorist events and attacks.

Countering New Terrorism will be of interest to researchers, students enrolled in terrorism and Homeland Security programs, crisis negotiators and police, security intelligence and military authorities tasked with counterterrorism and anti-terrorism efforts.
