Neha Jaarboek Voor Economische Bedrijfs En Techniekgeschiedenis Deel 62:

NEHA-jaarboek voor economische, bedrijfs- en techniekgeschiedenis, 2001 De chemist Henk Vermande, 2022-03-22

Chemist is een verouderd Nederlands woord voor chemicus of scheikundige iemand die verstand heeft van de scheikunde of de scheikunde beoefent Tot in de 19e eeuw was het ook de naam van een beroep het was iemand die chemicaliën met name chemische geneesmiddelen produceerde en verkocht De chemist positioneerde zich zeker anderhalve eeuw 1670 1820 op de farmaceutische markt als zelfstandige leverancier van chimicalia en medicijnen naast de apotheker en de drogist Dit boek beschrijft de fascinerende geschiedenis van de opkomst bloei en neergang van de beroepsgroep van de chemisten in Nederland en de eeuwenlange strijd tussen apothekers en chemisten over de chemische geneesmiddelenbereiding Tot enige vorm van institutionalisering van het chemistenberoep in de vorm van gereguleerde opleidingen een corporatieve organisatievorm en een diplomastructuur is het in Nederland nooit gekomen Dit zal een van de redenen zijn dat er over de chemisten heel weinig bekend is en het beroep van de chemist in de geschiedschrijving van zowel de farmacie de chemie als de geneeskunde tussen wal en schip is gevallen In deze studie vult Henk Vermande dit hiaat De chemisten hadden een gemeenschappelijk uithangteken de salamander in het vuur embleem van de chemische bereiding van geneesmiddelen Met dit uithangteken konden de chemisten zich onderscheiden van de apothekers met hun vizel de drogisten met hun gaper en de distillateurs brandewijnbranders met hun distilleerketel Handel in Amsterdam ten tijde van de Opstand Clé Lesger, 2001 **Onderzoek in opdracht** L.J. Dorsman, P.J. Knegtman, 2007 "Een slaafsch en ongezond bedrijf" John Dehé, 2005 *'Op den akker des doods, waar allen gelijk worden ...'* Maurice Heemels, 2016 Dit boek gaat over de Roermondse begraafcultuur tussen 1870 en 1940 Centraal staat de begraafplaats Nabij Kapel in t Zand waar in deze periode alle Roermondenaren hun laatste rustplaats vonden De begraafplaats wordt onderzocht vanuit een sociaalhistorisch cultureel religieus en kunsthistorisch perspectief Negentiende en vroeg twintigste eeuwse begraafplaatsen worden wel getypeerd als spiegel van de samenleving Als microkosmos van de levende stad zou via hen het beeld van de stad uit het verleden kunnen worden opgeroepen Maurice Heemels toont aan dat dit voor de Roermondse necropool geldt De sociale verschillen in de stad kwamen scherp tot uiting in de klassenindeling op de begraafplaats in de begrafenisrituelen en in de monumentale grafcultuur Aan de uitspraak van Jacobus Craandijk dat op de begraafplaats allen gelijk worden mag dus hooguit een symbolische betekenis worden toegekend **Burgers, broeders en bazen** Aart Vos, 2007 **Techniek in Nederland in de twintigste eeuw: Landbouw voeding**, 1998 Merchant Kings Albert Schrauwers, 2021-04-02 In the nineteenth century the Netherlands and its colonial holdings in Java were the sites of dramatically increased industrialization Led by a group of merchant kings who exemplified gentlemanly capitalism this ambitious trading project transformed the small economically moribund Netherlands into a global power Merchant Kings offers a fascinating interdisciplinary exploration of this episode and reveals not only the distinctive nature of the Dutch state but the surprising extent to which its nascent

corporate innovations were rooted in early welfare initiatives By placing colony and metropole into a single analytical frame this book offers a bracing new approach to understanding the development of modern corporations **Kant en passement**, 2000 Bundel opstellen over de productie van kant en passementen *Engineering the Future, Understanding the Past* Ruth Oldenziel, Erik van der Vleuten, Mila Davids, 2017-04-20 Technology today is often presented as our best hope of solving the world's social and sustainability problems And that's nothing new engineers have always sought to meet the big challenges of their times even as those challenges have shaped their technology This book offers a historical look at those interactions between engineering and social challenges showing how engineers developed solutions to past problems and looking at the ways that those solutions often bring with them unintended consequences that themselves require solving *Techniek in Nederland in de twintigste eeuw: Delfstoffen, energie, chemie*, 1998 *IDS Bulletin*, 2007 **Geschiedenis van Amsterdam: no. 2. Zelfbewuste Stadstaat 1650-1813**, 2005 **Techniek in Nederland in de twintigste eeuw: Stad Bouw Industrie le Productie**, 1998 **Comparative Port History of Rotterdam and Antwerp (1880-2000)** Ferry de Goey, 2004 Comparative port history is often preached but seldom practiced This volume compares the development of Rotterdam and Antwerp in the period 1880-2000 Because of their geographical proximity these European ports have a long history of intense rivalry In order to attract new cargo flows port dues and cargo handling costs were regarded as vital instruments but the volume qualifies the importance of pricing as a competitive instrument and questions the common typologies of Rotterdam and Antwerp Using new methods and theories and employing an extensive recently constructed database the book presents a fresh look at an old topic This volume contains contributions of both Belgian and Dutch authors About the Author **Bijdragen en mededelingen betreffende de geschiedenis der Nederlanden**, 1997 *Stad in aanwas: Geschiedenis van Rotterdam tot 1813* Arie van der Schoor, 1999 Het behoorde tot de kleinere Hollandse steden en in die situatie zou tot ver in de 16de eeuw weinig verandering komen **Historia agriculturae**, 1995 Technologies of Learning Bert De Munck, 2007 The importance of training and education is on the increase While the production of human capital is seen as a motor for a competitive economy skills and expertise prove to be necessary for social mobility Remarkably in conceiving modern forms of apprenticeship several mechanisms from the ancien regime seem to return The difference between public and private initiative is disappearing education and training is being confused and in order to acquire generic skills as flexibility communicability self rule creativity and so on youngsters have to learn in context Even for maths scholars now talk of situated learning Before the advent of a formal schooling system training took place on the shop floor under the roof of a master The apprentice not only worked but also lived in his master's house and was thus trained and educated at the same time In cities this system was formally complemented by an official apprenticeship system prescribing a minimum term to serve and an obligatory masterpiece for those who wanted to become masters themselves Traditionally historians see this as an archaic and backward way of training yet this book's aim is to show that it was instead a very flexible and dynamic

system perfectly in tune with the demands of an early modern economy In order to understand it fully however we should differentiate the informal training system organised via a free market of indentures on the one hand and the institutionalised system of craft guilds on the other In Antwerp early modern guilds had a project of emancipating their members They didn't simply produce certain skills but through a system of quality marks defended the honour of craftsmen This is the difference with current practices By representing hands on skills as superior guilds supplied a sort of symbolic capital for workers

Right here, we have countless ebook **Neha Jaarboek Voor Economische Bedrijfs En Techniekgeschiedenis Deel 62** and collections to check out. We additionally come up with the money for variant types and also type of the books to browse.
