## **Neha Jaarboek Voor Economische Bedrijfs En Techniekgeschiedenis Deel 64:**

NEHA-jaarboek voor economische, bedrijfs- en techniekgeschiedenis ,2001      Techniek in Nederland in de twintigste eeuw: Stad Bouw Industrie le Productie ,1998      *Brouwen aan de Eem* Leen Alberts,2017 In de late middeleeuwen was de bierproductie een van de belangrijkste bedrijfstakken in de opkomende steden De brouwers uit Amersfoort exporteerden hun befaamde hoppenbier naar alle naburige gewesten Deze studie positioneert de biernijverheid van Amersfoort ten opzichte van concurrerende steden Gunstige natuurlijke omgevingsfactoren maar ook ondernemerschap en marktontwikkelingen droegen bij aan de opkomst de bloei en de neergang van het brouwbedrijf aan de Eem De bierproductie verschaftte veel werkgelegenheid en de bieraccijns was de fiscale melkkoe van de overheid Brouwers behoorden tot de gegoede burgerij en velen zaten in het stadsbestuur Niet voor niets liep het brouwersgilde bij luisterrijke religieuze processies samen met de stadsbestuurders en de priesters van de grote kerk in de kern van de stoet Voor de deelnemers en de toeschouwers was de boodschap helder Amersfoort was een echte bierstad      Engineering the Future, Understanding the Past Ruth Oldenziel,Erik van der Vleuten,Mila Davids,2017-04-20 Technology today is often presented as our best hope of solving the world s social and sustainability problems And that s nothing new engineers have always sought to meet the big challenges of their times even as those challenges have shaped their technology This book offers a historical look at those interactions between engineering and social challenges showing how engineers developed solutions to past problems and looking at the ways that those solutions often bring with them unintended consequences that themselves require solving      **Merchant Kings** Albert Schrauwers,2021-04-02 In the nineteenth century the Netherlands and its colonial holdings in Java were the sites of dramatically increased industrialization Led by a group of merchant kings who exemplified gentlemanly capitalism this ambitious trading project transformed the small economically moribund Netherlands into a global power Merchant Kings offers a fascinating interdisciplinary exploration of this episode and reveals not only the distinctive nature of the Dutch state but the surprising extent to which its nascent corporate innovations were rooted in early welfare initiatives By placing colony and metropole into a single analytical frame this book offers a bracing new approach to understanding the development of modern corporations      **"Een slaafsch en ongezond bedrijf"** John Dehé,2005      Dragend bestaan Ruud Paesie,2023-08-30 Vanaf de eerste helft van de zestiende eeuw concentreerde de Baltische graanhandel zich in Amsterdam Daar werd het graan niet alleen door korendragers gelost maar ook in open zakken naar de speciale korenpakhuizen gedragen Daarna droegen zij de zware last via steile ladders naar de bestemde zolderverdieping waar het werd opslagen Aan deze veelal ongeschoolde en loonafhankelijke havenarbeiders heeft Amsterdam in niet geringe mate haar welvaart te danken De graanhandel was immers de moedernegotie van de stad Net als ambachtslieden waren de Amsterdamse korendragers in een gilde georganiseerd en alleen leden hadden het recht om graan zout en andere bulkgoederen te dragen De corporatie kende geen numerus fixus en het ledental was groot Door de eeuwen heen hebben duizenden leden waaronder veel

migranten dit zware en risicovolle sjuwwerk verricht Verder blijkt dat er wel degelijk een directe continuïteit heeft bestaan tussen de vroegmoderne gilden en de hedendaagse vakverenigingen Met deze conclusie kan het langslpende academisch debat over de continuïteitsvraag eindelijk worden gesloten Door niet alleen de organisatie maar ook de individuele leden en de praktijk van het werk van alledag te bestuderen heeft de auteur bovendien een nieuwe dimensie toegevoegd aan de geschiedenis van de arbeid

**Techniek in Nederland in de twintigste eeuw**, 2003 *Volkskunde*, 2003 *Techniek in Nederland in de twintigste eeuw: Delfstoffen, energie, chemie*, 1998 *Volkskunde, tijdschrift voor Nederlandsche folklore*, 2003 *Made in Holland* Harry Lintsen, 2005 *Made in Holland* behandelt de geschiedenis van Nederland maar dan vanuit het perspectief van de techniek Gezocht wordt naar de wortels van onze moderne maatschappij aan de hand van zes thema's en de technische domeinen die daarmee verband houden Voor het voetlicht komen de demografische revolutie, bevolkingsgroei, toename gemiddelde leeftijd, de bescherming tegen het water, de industriële revolutie, de groei van de mobiliteit van mensen, ideeën en goederen, de opkomst van de consumptiemaatschappij en de professionalisering van de techniek Iedere keer dringt zich de vraag op: Zijn wij erop vooruit gegaan? Zijn wij er gelukkiger door geworden? En had het ook anders gekund?

*Historia agriculturæ*, 1995 **Met alle geweld**, 2003 Zestien essays over conflicten, soms uitmondend in geweld in het schijnbaar burgerlijke, vreedzame Nederland van 1800 tot 2000 met de nadruk op de Duitse bezetting en jodenvervolgning

**Technologies of Learning** Bert De Munck, 2007 The importance of training and education is on the increase While the production of human capital is seen as a motor for a competitive economy skills and expertise proof to be necessary for social mobility Remarkably in conceiving modern forms of apprenticeship several mechanisms from the ancien régime seem to return The difference between public and private initiative is disappearing education and training is being confused and in order to acquire generic skills as flexibility, communicability, self-rule, creativity and so on youngsters have to learn in context Even for maths scholars now talk of situated learning Before the advent of a formal schooling system training took place on the shop floor under the roof of a master The apprentice not only worked but also lived in his master's house and was thus trained and educated at the same time In cities this system was formally complemented by an official apprenticeship system prescribing a minimum term to serve and an obligatory masterpiece for those who wanted to become masters themselves Traditionally historians see this as an archaic and backward way of training yet this book's aim is to show that it was instead a very flexible and dynamic system perfectly in tune with the demands of an early modern economy In order to understand it fully however we should differentiate the informal training system organised via a free market of indentures on the one hand and the institutionalised system of craft guilds on the other In Antwerp early modern guilds had a project of emancipating their members They didn't simply produce certain skills but through a system of quality marks defended the honour of craftsmen This is the difference with current practices By representing hands-on skills as superior guilds supplied a sort of symbolic capital for workers
