Network Power Japan And Asia:

Network Power Peter J. Katzenstein, Takashi Shiraishi, 1997 This collection of scholarly papers examines the influence of Japanese dominance on the politics economies and cultures of Southeast Asia A major question probed is whether Japan has now attained through economic power the predominance it once sought through military means Japan s hegemonic system is not the first to work over the area before it were those from China from Britain from the United States This collection s comparative perspective acknowledges the distinctiveness of Asian regionalism and Japan s changing role with it As the subtitle of this book indicates it is concerned with Japan and Asia and not with Japan in Asia thus suggesting a complex and at the same time problematical regional identity for Japan

Japan's Relations with Muslim Asia B. Bryan Barber, 2019-12-10 This book offers a useful and extensive account of Japan s past discoveries and present interactions with Muslim states and societies across Asia Bearing in mind the U S led global meta narrative of Islam spoken in tandem with security and threats this book examines how this reconciles with Japan s self proclaimed values based approach to diplomacy across Asia in the twenty first century The author considers Japan s historic conceptualization and learning of Islam and its acute needs for access to markets and energy from Muslim majority states in Asia He also argues that Japan securitizes Islam in a manner distinct from Western Russian or Chinese securitization today but that Japan promotes itself as a model for human security and development across an Asia inclusive of Muslim states Japan s approach to Islam and Muslim societies today offers much from which other great powers can learn

Selbstbehauptungsdiskurse in Asien: China - Japan - Korea Iwo Amelung, Matthias Koch, Joachim Kurtz, Eun-Jeung Lee, Sven Saaler, 2003 Tendenzen zur Behauptung oder Rückgewinnung eigener Identität haben in den vergangenen Jahrzehnten in Ostasien und anderen Regionen der Welt erneut an Bedeutung und Präsenz gewonnen Eigene Werte Denk und Handlungsweisen sollen wieder stärker zu prägenden Faktoren von Lebensstil und Lebensformen werden und auch in Politik Wirtschaft Kultur und Erziehung vermehrt Ausdruck finden so wird in öffentlichen Debatten gefordert zumeist in Abgrenzung zum Westen und bei gleichzeitiger Anlehnung an von dort entliehene Begrifflichkeiten und Argumentationsstrategien Sich dem vielschichtigen Phänomen solcher Selbstbehauptungsdiskurse interdisziplinär und im Dialog mit Wissenschaftlern aus der Region anzunähern ist das Ziel einer Symposienreihe die vom Deutschen Institut für Japanstudien DIJ dem Lehrstuhl für Sinologie der Universität Erlangen Nürnberg und dem Lehrstuhl für Vergleichende Kulturwissenschaft der Universität Saka initiiert worden ist In diesem Band wird eine Auswahl der Beiträge der ersten beiden Symposien die in den Jahren 2000 und 2001 in Tokyo und in Seoul abgehalten wurden zusammengefasst

Engendering the State Lynn Savory, 2012-11-12 Why have states in general been slower to incorporate the international diffusion of women's human rights norms domestically than other human rights norms and why has the diffusion of these norms varied so greatly between states Why are some states more responsive and exert more effort than others to comply with these norms Engendering the State explains these key issues and argues that the gender biased identity of many states represents the most significant barrier to diffusion It also explores how particular norms have diffused into certain states at specific points in time as a consequence of international and domestic pressure The author addresses the limitations of existing explanations of international norms case studies of Germany Spain Japan and India which provide a new perspective on comparative analysis of Europe and Asia alternative arguments on cross national

The Politics of the Asian Economic Crisis T. J. Pempel, 2018-09-05 In the summer of 1997 a tidal wave of economic problems swept across Asia Currencies plummeted banks failed GNP stagnated unemployment soared and exports stalled In short the vaunted Asian Economic Miracle became the Asian Economic Crisis with serious repercussions for nations and markets around the world While the headlines are still fresh a group of experts on the region presents the first account to focus on the political causes and implications of the crisis The events of 1997 98 involved not just property values financial flows portfolio makeup and debt ratios they argue but also the power relationships that shaped those economic indicators As they examine the domestic regional and international politics that underlay the economic collapse the authors analyze the reasons why the crisis affected the nations of Asia in radically different ways The authors also consider whether the crisis indicates a radical change in Asia s economic future

Asia-Pacific Economic Cooperation (APEC)

Werner Draguhn, Eva Manske, Jürgen Rüländ, 2013-04-03 The Asia Pacific Economic Cooperation APEC was founded in 1989 Since then the forum has developed into a major player in tri partite relations between North America East Asia and Europe The Seattle and Bogor Summits were landmark events suggesting to many observers a gravitational shift in the world economy and world politics Yet the Asian financial crisis had a sobering effect on high flying expectations as APEC contributed little to crisis management In the light of such contradictory performance distinguished scholars here examine APEC s achievements and failures its role and functions in international relations its linkages with regional organisations and the interplay between the forum and national interests of major factors in the region

Globalisation and Economic Security in East Asia Helen E. Nesadurai, 2012-09-11 What is the relationship between globalization and economic security Globalisation and Economic Security in East Asia is an incisive new engagement with this important question that uses detailed conceptual exploration and fresh empirical analysis Viewing traditional neorealist conceptions of economic security as overly narrow this new study suggests that any conception of economic security in the contemporary era needs to also pay close attention to the nature of global capitalism and the insecurities it generates for societies and individuals This uniquely open ended approach to conceptualizing economic security is supported by the East Asian experience The country case studies included here reveal that while economic security has largely been posed as one of ensuring sustainable economic growth and equitable social development particularly following the 1997 to 1998 Asian financial crisis other more realist conceptions of economic security have not become irrelevant This is also an exploration of whether and how national regional and multilateral institutions as well as non state regional mechanisms help policy makers meet the task of governing in the interests of economic security This book will be of great interest to all students and scholars of international relations international political economy of East Asia globalization and security studies

A World of Regions Peter J.

Katzenstein,2015-05-01 Observing the dramatic shift in world politics since the end of the Cold War Peter J Katzenstein argues that regions have become critical to contemporary world politics This view is in stark contrast to those who focus on the purportedly stubborn persistence of the nation state or the inevitable march of globalization In detailed studies of technology and foreign investment domestic and international security and cultural diplomacy and popular culture Katzenstein examines the changing regional dynamics of Europe and Asia which are linked to the United States through Germany and Japan Regions Katzenstein contends are interacting closely with an American imperium that combines territorial and non territorial powers Katzenstein argues that globalization and internationalization create open or porous regions Regions may provide solutions to the contradictions between states and markets security and insecurity nationalism and cosmopolitanism Embedded in the American imperium regions are now central to world politics *Asian Regional Governance* Kanishka Jayasuriya,2004-07-31 Jayasuriya looks at the changing global and domestic political economies shaping the new regionalism in Asia and examines the relationship between regional domestic political and economic structures and forms of regional governance Well known contributors in the field focus on the impact of globalization on Asian regionalism new security challenges monetary cooperation sovereignty democratization industry policy and China s engagement with southeast Asia Providing a detailed overview of the conceptual foundations of regional governance this text is an indispensable resource for all who want to understand the emerging dynamics of regionalism in the Asia Pacific

State / Space Neil Brenner,Bob Jessop,Martin Jones,Gordon Macleod,2008-04-15 This groundbreaking interdisciplinary volume brings together diverse analyses of state space in historical and contemporary capitalism The first volume to present an accessible yet challenging overview of the changing geographies of state power under capitalism A unique interdisciplinary collection of contributions by major theorists and analysts of state spatial restructuring in the current era Investigates some of the new political spaces that are emerging under contemporary conditions of globalization Explores state restructuring on multiple spatial scales and from a range of theoretical methodological and empirical perspectives Covers a range of topical issues in contemporary geographical political economy Contains case study material on Western Europe North America and East Asia as well as parts of Africa and South America *The Asian Modern* C.J.W.-L. Wee,2007-10-01 How does one comprehend the phenomenon of the modernization of an Asian society in a globalized East Asian context With this opening question the author proceeds to give an account of how the modernization processes for postcolonial societies in Asia such as those of India Malaysia and Singapore are fraught with collaborations and conflicts between different socio political historical economic and cultural agents Such ambivalent dynamics contribute to what Wee argues as a revealing distortion of the extant models of Western modernity which is nonetheless rooted in the politics of worldwide capitalism Wee s narrative refuses to accept the uncritical interpretation of the modernizing processes in Asia as liberation from the hegemony of Euro American capitalism But neither is Wee prepared to concede that all cultural initiatives

in the postcolonial societies are therefore denied all power to devise alternative forms of expression in the face of this haunting presence. It is the persistent effort to see the many faces of modernization in Asia in their full complexity that sets this study apart. Readers will discover that what seems to be the modernization of a single geopolitical entity is inevitably linked to the dynamics of various agents in other locations at different times which makes us reflect on the existence of the many distortions in our societies.

Remapping East Asia T. J. Pempel, 2018-08-06 An overarching ambiguity characterizes East Asia today. The region has at least a century long history of internal divisiveness, war and conflict, and it remains the site of several nettlesome territorial disputes. However, a mixture of complex and often competing agents and processes has been knitting together various segments of East Asia. In *Remapping East Asia*, T. J. Pempel suggests that the region is ripe for cooperation rather than rivalry, and that recent region building developments in East Asia have had a substantial cumulative effect on the broader canvas of international politics. This collection is about the people, processes and institutions behind that region building. In it, experts on the area take a broad approach to the dynamics and implications of regionalism. Instead of limiting their focus to security matters, they extend their discussions to topics as diverse as the mercurial nature of Japan's leadership role in the region, Southeast Asian business networks, the war on terrorism in Asia, and the political economy of environmental regionalism. Throughout, they show how nation states, corporations, and problem specific coalitions have furthered regional cohesion, not only by establishing formal institutions but also by operating informally, semiformally, or even secretly.

Asia and the Transformation of the World-System Ganesh K. Trichur, 2015-12-03 In this collaboratively authored book, world system scholars critically synthesize Asia's re-emerging centrality despite the myriad financial crises that have punctuated the end of the U.S. dominated Cold War world order. From different vantage points, the authors review the turbulent landscape of the region that points toward a new Asian world order, as well as contradictory symptoms and signals. The text highlights the salience of Northeast Asia, the resurgence of Russia and Eurasianism, and the class, gender, and ecological implications of a conflict ridden regional ascent for the future of the North-South divide and for the struggle between the spirit of Davos and the spirit of Porto Alegre.
