used to manage people's disabilities and care for the elderly to improve their quality of life and extend life expectancy. This edited book covers all aspects of assistive technologies including the Internet of Things (IoT), telemedicine, e-Health, m-Health, smart sensors, robotics, devices for rehabilitation, and serious games. This book will prove useful for bioengineers, computer science undergraduate and postgraduate students, researchers, practitioners, biomedical engineering students, healthcare workers, and medical doctors. This volume introduces recent advances in biomaterials, sensors, cellular engineering, biomedical devices, nanotechnology, and biomechanics applied in caring for the elderly and people with disabilities. The unique focus of this book is on the needs of this user base during emergency and disaster situations. The content includes risk reduction, emergency planning, response, disaster recovery, and needs assessment. This book offers readers multiple perspectives on a wide range of topics from a variety of disciplines. This book answers two key questions: What challenges will the elderly and people with disabilities face during a pandemic? How can new or emerging advances in biomedical engineering help with these challenges? Includes coverage of smart protective care tools, disinfectants, sterilization equipment, and equipment for rapid and accurate COVID-19 diagnosis. Focuses on the limitations and challenges faced by the elderly and people with disabilities in pandemic situations such as limitations on leaving their homes and having caregivers and family visit their homes. How can technology help? Discusses tools, platforms, and techniques for managing patients with COVID-19.

Clinical Handbook of Psychological Disorders David H. Barlow, 2021-06-04. Now in a revised and expanded sixth edition, this is the leading text on evidence-based treatments for frequently encountered mental health problems. David H. Barlow has assembled preeminent experts to present their respective approaches in step-by-step detail, including extended case examples. Each chapter provides state-of-the-art information on the disorder at hand, explains the conceptual and empirical bases of intervention, and addresses the most pressing question asked by students and practitioners: How do I do it? Concise chapter introductions from Barlow highlight the unique features of each treatment and enhance the book's utility for teaching and training. New to This Edition: Existing chapters thoroughly revised to incorporate the latest empirical findings and clinical practices. Chapter on process-based therapy, a new third-wave approach for social anxiety. Chapter on transdiagnostic treatment of self-injurious thoughts and behaviors. Chapter on chronic pain.
