

COMPARE AND CONTRAST

Read the passage carefully. Identify if the given statements compares (CE) or contrasts (CT) the two characters.

Jen had a best friend whose name was also Jenn but with a double "n." They had beautiful brown eyes and blonde hair. But Jenn had long, wavy hair, while Jen had short, straight hair. They went to the same school and studied in the same class. They enjoyed playing sports together. They both excelled in their artistic talents, with a knack for drawing. One of them had a cat as a pet, while the other had a dog. They had different favorite colors, adding a unique touch to their friendship. They were responsible and often helped each other with homework. Coincidentally, their birthdays were in the same month. They loved their pets very much. Jenn took her cat wherever she went, while Jen's dog was her constant companion. However, tragedy struck when Jen forgot to close her dog's cage one day, and that was the last day she saw her pet. On the other hand, Jenn's cat brought joy to her life, and they played together every night.

1. They studied in the same class and school. _____
2. They have the same hair color. _____
3. One of them had a cat as a pet. _____
4. They were responsible. _____
5. They took their pet wherever they went. _____
6. Their eyes were of the same color. _____
7. Both of them were good at drawing. _____

Phonics Practice Reading Comprehension Compare:

Resources in Education ,2000-10 Fluency and Reading Comprehension in Typical Readers and Dyslexics Readers

Simone A. Capellini, Giseli D. Germano, 2018-02-22 Reading involves decoding and comprehension components and to become efficient it requires a large number of cognitive and linguistic processes Among those the phonological awareness the alphabetic principle the decoding the fluency the lexical development and the text comprehension development The reading comprehension is strongly related with the development of vocabulary oral language linguistic skills memory skills and ability to make inferences and the world experiences of each individual These processes become important only when the professional needs to deal with students presenting difficulties in learning how to read The difficulty using the knowledge of conversion rules between grapheme and phoneme to the word reading construction characterizes the dyslexia which is a specific learning disorder with a neurological source These difficulties presented by students with dyslexia interfere in their learning process impairing the learning development Knowing and following the reading development and its processes as well as obtaining the punctuation of fluency abilities and students comprehension allow us to understand what happens when the student presents difficulties to read This could help in the identification of learning disabilities and in the development of intervention programs

Handbook of Pediatric Neuropsychology Andrew S. Davis, 2010-10-25 By far the most comprehensive and detailed coverage of pediatric neuropsychology available in a single book today Davis provides coverage of basic principles of pediatric neuropsychology but overall the work highlights applications to daily practice and special problems encountered by the pediatric neuropsychologist Cecil R Reynolds PhD Texas A M University The breadth and depth of this body of work is impressive Chapters written by some of the best researchers and authors in the field of pediatric neuropsychology address every possible perspective on brain behavior relationships culminating in an encyclopedic text This book reflects how far and wide pediatric neuropsychology has come in the past 20 years and the promise of how far it will go in the next Elaine Fletcher Janzen EdD NCSP ABPdN The Chicago School of Professional Psychology it would be hard to imagine a clinical situation in pediatric neuropsychology in which this book would fail as a valuable resource Archives of Clinical Neuropsychology I believe there is much to recommend this hefty volume It is a solid reference that I can see appreciating as a resource as I update my training bibliography Journal of the International Neuropsychological Society This landmark reference covers all aspects of pediatric neuropsychology from a research based perspective while presenting an applied focus with practical suggestions and guidelines for clinical practice Useful both as a training manual for graduate students and as a comprehensive reference for experienced practitioners it is an essential resource for those dealing with a pediatric population This handbook provides an extensive overview of the most common medical conditions that neuropsychologists encounter while dealing with pediatric populations It also discusses school based issues such as special education law consulting with school staff and reintegrating children back into mainstream schools It contains over 100 well

respected authors who are leading researchers in their respective fields Additionally each of the 95 chapters includes an up to date review of available research resulting in the most comprehensive text on pediatric neuropsychology available in a single volume Key Features Provides thorough information on understanding functional neuroanatomy and development and on using functional neuroimaging Highlights clinical practice issues such as legal and ethical decision making dealing with child abuse and neglect and working with school staff Describes a variety of professional issues that neuropsychologists must confront during their daily practice such as ethics multiculturalism child abuse forensics and psychopharmacology
