Writing a Cover Letter

A resume is not the only important paper you have to create to get a job. Another thing is a strong cover letter. People who are hiring today are very busy. They don't always read the resume closely. Your letter only has a few minutes to impress someone. You could come out on a great job if you don't get the attention. One way to do this is with a great cover letter.

A great cover letter can help you get a job. A person with the money invested in reading your resume. If the cover letter gets their attention. A cover letter is a way to quickly show why you are interested in the job. It also tells why you would be good at the job.

You should always tell about skills you have to do with the job. Even if you don't have a lot of experience, there is always a skill that will help you. You wouldn't be applying for the job if you didn't think you'd be good at it.

The cover letter should look a lot like your resume. Use the same paper and font that you used when you typed your resume. Make sure there are no mistakes in it, and that the letter ends with your name and address. Also put your phone number and any other way the company could contact you. This could be a cell phone number or an email address.

Next, put the person's or the company's name. Make sure to put the full address and job title of them in one. Under that, put the name of the person you are writing to. If you have a name, start with Mr. or Ms. and the last name. If not, start with "Dear" and the name of the department you are writing to. Put a comma after the name.

Next comes the opening paragraph. This is where you tell how you found out about the job. You may have read about the job in a newspaper. Some people find new jobs on the Internet. Or maybe your uncle told you about this great company and that you really want it. What have are great ways to find a job.

In the second paragraph, tell why you would be good for the job. Don't be afraid to brag a little. This is where you show the company a picture of what kind of skills you have. Do talk any skills you have working with people. Also include any classes or jobs that you have had in the past.

The third paragraph is where you try to tell the company why they should hire you. Are you a great worker who is always positive? Are you cooperative, or do you work well with other people? Tell them this. Think about the company. What kind of worker do you have that would make you a great employee?

End your cover letter with how the company can contact you. If they can only reach you during a certain part

COMMUNICATIVE ENGLISH IN THE NEP ERA : Strategies for Academic, Professional, and Everyday Success

Prof. (Dr.) Ashvini Joshi, Dr. Shweta Rathore, Ms. Yeshveen Hasan, 2025-09-02

The National Education Policy NEP 2020 has ushered in a new era in Indian education emphasizing holistic development, multilingualism, and the acquisition of 21st century skills. Within this transformative framework, English language proficiency assumes a distinctive role, not merely as a subject of study but as a vital medium for academic achievement, professional advancement, and global communication. This book, *Communicative English in the NEP Era: Strategies for Academic, Professional, and Everyday Success*, has been conceived in alignment with NEP's learner-centered philosophy and its emphasis on competency-based education. It seeks to equip students, educators, and professionals with the requisite skills to employ English confidently across academic, workplace, and everyday contexts.

The book is divided into five parts, each comprising three chapters with illustrative examples, model tasks, and exercises to enhance clarity and comprehension.

Purpose of the Book

The primary purpose of this book is to bridge the gap between theoretical knowledge of English and its practical application in real-world contexts. Unlike conventional textbooks that often limit themselves to grammar drills and rote exercises, this work provides an integrated approach to English communication, making it relevant for academic, professional, and social interactions in the 21st century.

The objectives of this book are fourfold:

1. **To Develop Core Communicative Competencies**
 - o Strengthen the four fundamental skills of language: listening, speaking, reading, and writing (LSRW) with a focus on real-life application.
 - o Build fluency, accuracy, and confidence in diverse communicative settings such as academic discussions, workplace interactions, and social exchanges.
2. **To Provide Practical and Adaptive Learning Strategies**
 - o Combine traditional approaches to language learning with modern, technology-driven tools such as digital platforms, online collaboration spaces, and AI-enabled language resources.
 - o Encourage learners to adapt their communication style to both physical and virtual environments, making them versatile communicators.
3. **To Foster Cultural and Linguistic Sensitivity**
 - o Highlight the importance of inclusivity, respect, and cross-cultural awareness in communication.
 - o Prepare learners to interact effectively in India's multilingual context while also equipping them to engage with global audiences.
4. **To Enable Competency-Based Experiential Learning**
 - o Move beyond theory by including role plays, case studies, sample professional documents, interviews, and model responses.
 - o Provide interactive activities for classrooms, online courses, and professional training modules, ensuring that learning is active, engaging, and directly applicable.

Thus, the book is not only a language resource but also a guide for personal and professional development, aligning with NEP's vision of producing confident, creative, and globally competent citizens.

Intended Audience

This book has been designed for Undergraduate and postgraduate students studying under the NEP framework, Teachers and trainers seeking NEP-aligned communicative English resources, Professionals aiming to enhance workplace communication skills, Lifelong learners striving for personal growth and improved English proficiency.

Structure of the Book

The content is systematically organized into five parts, progressing from academic to professional and finally to everyday communication skills. The concluding section consolidates learning with strategies, practice activities, and curated resource lists. Each chapter begins with specific learning

objectives and concludes with reflection questions model responses and practical exercises to encourage active participation and self assessment A Collaborative Effort The preparation of this book has been shaped by over two decades of teaching experience collaboration with fellow educators insights from students and the evolving communicative demands of a multilingual society adapting to global transformations It is my sincere hope that this work will serve not only as a textbook but also as a companion and guide in the reader s journey towards becoming a confident effective and culturally sensitive communicator in English
