

A group of five young adults, three men and two women, are posing for a selfie on a wooden walkway at night. The man in the foreground is holding a smartphone and taking the photo. They are all smiling and looking towards the camera. The background shows a dark building with a corrugated metal roof and some industrial structures.

Subprime Attention Crisis Tim Hwang, 2020-10-13 From FSGO x Logic a revealing examination of digital advertising and the internet's precarious foundation In Subprime Attention Crisis Tim Hwang investigates the way big tech financializes attention In the process he shows us how digital advertising the beating heart of the internet is at risk of collapsing and that its potential demise bears an uncanny resemblance to the housing crisis of 2008 From the unreliability of advertising numbers and the unregulated automation of advertising bidding wars to the simple fact that online ads mostly fail to work Hwang demonstrates that while consumers' attention has never been more prized the true value of that attention itself much like subprime mortgages is wildly misrepresented And if online advertising goes belly up the internet and its free services will suddenly be accessible only to those who can afford it Deeply researched convincing and alarming Subprime Attention Crisis will change the way you look at the internet and its precarious future FSG Originals Logic dissects the way technology functions in everyday lives The titans of Silicon Valley for all their utopian imaginings never really had our best interests at heart recent threats to democracy truth privacy and safety as a result of tech's reckless pursuit of progress have shown as

much We present an alternate story one that delights in capturing technology in all its contradictions and innovation across borders and socioeconomic divisions from history through the future beyond platitudes and PR hype and past doom and gloom Our collaboration features four brief but provocative forays into the tech industry s many worlds and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today

Facebook, the Media and Democracy Leighton Andrews,2019-08-29 Facebook the Media and Democracy examines Facebook Inc and the impact that it has had and continues to have on media and democracy around the world Drawing on interviews with Facebook users of different kinds and dialogue with politicians regulators civil society and media commentators as well as detailed documentary scrutiny of legislative and regulatory proposals and Facebook s corporate statements the book presents a comprehensive but clear overview of the current debate around Facebook and the global debate on the regulation of social media in the era of surveillance capitalism Chapters examine the business and growing

institutional power of Facebook as it has unfolded over the fifteen years since its creation the benefits and meanings that it has provided for its users its disruptive challenge to the contemporary media environment its shaping of conversations and the emerging calls for its further regulation The book considers Facebook s alleged role in the rise of democratic movements around the world as well as its suggested role in the election of Donald Trump and the UK vote to leave the European Union This book argues that Facebook in some shape or form is likely to be with us into the foreseeable future and that how we address the societal challenges that it provokes and the economic system that underpins it will define how human societies demonstrate their capacity to protect and enhance democracy and ensure that no corporation can set itself above democratic institutions This is an important research volume for academics and researchers in the areas of media studies
