times of global flows of media and technologies and reports of declining reading enjoyment researchers policymakers and educators need to engage anew with essential issues of what counts as reading what kinds of reading matter and how to support teen reading engagement in school and out of school settings Bringing together contributions from well known and emerging adolescent literacy researchers from different disciplinary perspectives this edited collection consolidates contemporary research on teens volitional print and digital reading whether in school or out of school contexts The first part of the book offers overviews of what teens are reading followed by chapters on community support on reading and new ways of researching teen reading With chapters from North America Europe Australia Asia and the Middle East the collection will offer multifaceted and complex insights into what how and why teens read in different contexts Reflection questions at the end of each chapter encourage readers to consider how the research can be applied in their own research policy and practice contexts This book will be of interest to researchers policymakers and educators who are invested in supporting adolescent engaged reading with evidence based policies and strategies *The Digital Future of English* Simone Murray, 2025-07-18

More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book s imminent demise presented a simplistic either or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline s founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future **Still Reading Romance** Josefine Smith, Kathleen W. How Stories Change Us Elaine Reese, 2024-09-20 In *How Stories Change Us*, Elaine Reese integrates the latest scientific research on stories from fiction, books, TV shows, and movies with stories from real life, our personal experiences, including on social media, across the lifespan. The book offers an authoritative yet accessible overview of the new interdisciplinary science of stories, told by a developmental psychologist and autobiographical memory expert with over thirty years of experience conducting research on stories. Reese synthesizes cutting edge research for an interdisciplinary audience, offers practical tips for parents, teachers, librarians, and policymakers, and she advocates for a more integrated science of stories to allow us to better choose the stories we consume and tell.

Reading for Pleasure: International Perspectives Teresa Cremin, Sarah McGeown, 2025-03-19 Growing evidence of the vital role reading for pleasure plays in children and young people's academic outcomes and socio-emotional wellbeing has placed it high on the agenda in both educational policy and practice. This valuable collection draws upon a range of disciplinary perspectives and methodological approaches to explore how reading for pleasure is experienced and enacted, and highlights the implications and benefits of such volitional reading in the lives and learning of children and young people. It offers contributions from leading international researchers on current evidence and literature within the field, identifying the causes and consequences of reading for pleasure and framing this within the context of understanding readers and applying this to developing effective pedagogical practices. With chapters examining how we may shape the reading experience, this book is divided into four sections: Understanding readers, including factors such as motivation, gender, and identity; The nature of texts, including fiction, sensory, and digital texts; Pedagogies and practices, exploring agency, book talk, and reading aloud; Environments conducive to reading for pleasure, including homes, school libraries, classrooms, and communities. Presenting diverse and interdisciplinary perspectives, this will be a key text for researchers, teacher educators, and policy makers who wish to become better informed.

Essays on Queer Latinx Young Adult Literature shows how Latinx queer YA writers discard the same old story and offer critical representations of queerness that broaden YA writing and insist on the presence of queer teens of color. *Atravesados* draws on foundational Chicana queer theorist Gloria Anzaldúa's notion of *atravesados* to speak to the spectrum of queer youth Latinidades as they materialize in YA literature. Los *atravesados* according to Anzaldúa are the squint-eyed, the perverse, the queer, the troublesome, the mongrel, the mulatto, the half-breed, the half-dead, in short those who cross over, pass over, or through the confines of the normal. Los *atravesados* reside in the borderlands space of *ni de aquí ni de allá*, neither here nor there, present yet liminal, their queerness the very source of both frustration and empowerment, a paradox of joy and tragedy. Although written in 1987, Anzaldúa's theory speaks to the realities of queer Latinx teens that fill the pages of YA literature well into the twenty-first century. Characters such as Juliet from Gabby Rivera's *Juliet Takes a Breath*, Aaron from Adam Silvera's *More Happy Than Not*, or the titular Chulito from Charles Rice Gonzales's novel encompass the highs, lows, and everything in betweenness of queer Latinx teen lived experiences. This collection tells their stories. Contributors speak to the spectrum of queer youth Latinidades as they materialize in YA literature, paying close attention to representation and the ways youth are portrayed, whether accurate or stereotypical. Close attention is paid to books that succeed in broadening the field of YA, highlighting authors that draw from their own lived experiences and situate strong, fully developed characters. Taken together, these essays move beyond the page, explaining to readers why representation and authenticity matter in YA literature as well as the far-reaching effects they can have for real-world queer Latinx teens.
