Networking Basics Ccna 1 Companion Guide Manual:

Network Basics Companion Guide Cisco Networking Academy, 2013-10-28 Network Basics Companion Guide is the official supplemental textbook for the Network Basics course in the Cisco Networking Academy CCNA Routing and Switching curriculum. Using a top-down OSI model approach, the course introduces the architecture, structure, functions, components, and models of the Internet and computer networks. The principles of IP addressing and fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of the course, you will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. The Companion Guide is designed as a portable desk reference to use anytime, anywhere, to reinforce the material from the course and organize your time. The book's features help you focus on important concepts to succeed in this course:

- Chapter Objectives:** Review core concepts by answering the focus questions listed at the beginning of each chapter.
- Key Terms:** Refer to the lists of networking vocabulary introduced and highlighted in context in each chapter.
- Glossary:** Consult the comprehensive Glossary with more than 250 terms.
- Summary of Activities and Labs:** Maximize your study time with this complete list of all associated practice exercises at the end of each chapter.
- Check Your Understanding:** Evaluate your readiness with the end-of-chapter questions that match the style of questions you see in the online course quizzes. The answer key explains each answer.
- How To:** Look for this icon to study the steps you need to learn to perform certain tasks.
- Interactive Activities:** Reinforce your understanding of topics with more than 50 different exercises from the online course identified throughout the book with this icon.
- Videos:** Watch the videos embedded within the online course.
- Packet Tracer Activities:** Explore and visualize networking concepts using Packet Tracer exercises interspersed throughout the chapters.
- Hands-on Labs:** Work through all 68 course labs and Class Activities that are included in the course and published in the separate Lab Manual.

[Networking Basics](#) Shawn McReynolds, 2007. The completely revised and only authorized Labs and Study Guide for the Cisco Networking Academy Program CCNA 1 curriculum. A portable classroom resource that supports the topics in the CCNA 1 curriculum, aligning 1:1 with course modules. Includes all the labs in the online curriculum as well as additional instructor-created challenge labs for extended learning and classroom exercises. Written by leading Academy instructor Shawn McReynolds, who brings a fresh voice to the course material. The all-new Labs and Study Guide titles combine the best of the former Lab Companions and Engineering Journal and Workbooks with new features to improve the student's hands-on skills and reinforce the topics for each CCNA course.

Networking Basics CCNA 1 Labs and Study Guide is a complete collection of the lab exercises specifically written for the CCNA 1 course in the Cisco Networking Academy Program, designed to give students hands-on experience in a particular concept or technology. Each lab contains an introductory overview, a preparation/tools required section, explanations of commands, and step-by-step instructions to reinforce the concepts introduced in the online course and covered in the Companion Guide. NEW Challenge labs written by Academy instructors tested in their classrooms will be

included as additional or alternative labs The Study Guide section is designed to provide additional exercises and activities to reinforce students understanding of the course topics preparing them for the course assessments As a study guide it will also continue to provide ample writing opportunities to guide students into the habit of keeping notes on networking topics
