Kirkman, Kerrie McAlister, 2013-10-08 *High Hopes* Tony London, 2016-01-01 High Hopes is the story of Tibetan education in India since the arrival of Tenzin Gyatso the Fourteenth Dalai Lama in India in 1959 When His Holiness the Dalai Lama arrived in India he came with his retinue and many thousands of followers who arrived soon after Their arduous journey was to a country about which most of them were ignorant They came as deeply committed Buddhists and with a positive belief in the future Other than the monks and high officials most of them had little or no formal education or experience They arrived into a country which was still emerging and forming its own identity and still reeling from the Partition and all of the related changes that had taken place after the departure of the British Raj This relatively small group of Tibetans were strangers in the political landscape of the sub continent with its millions Somehow Nehru and the Indians found a way to accommodate the Tibetans This book traces that story and the way that the Tibetans in exile have been able to forge their own unique Buddhist way of life and to incorporate that into their path for future **Where's the Wonder in Elementary Math?**

Judith McVarish, 2012-08-21 This book argues that even in today's high stakes testing environment teaching to the test need not be teachers only focus as they introduce young children to mathematics Judith McVarish demonstrates how building a community of learners and using problem solving to engage students can help teachers encourage students disposition to creative thinking and reasoning skills that can otherwise become lost due to the pressure of the many other expectations placed upon both teachers and students This book offers strategies for infusing mathematics learning and reasoning into elementary school classrooms while meeting curriculum and testing mandates The teacher researcher component of each chapter provides a vehicle for teachers to bring their own expertise and questions back into the teaching and learning equation *Vedic Mathematics Space Book (We)* S.K.
