

Customer Service

Career Exploration

What is customer service?

Customer service is delivering proactive* and immediate support to customers anytime in the correspondence of their choice — phone, email, text, chat, and more. Almost every job requires customer service. Some jobs that depend heavily upon, or require, good customer service would be: Waitresses/stresses, Fast Food workers, Cashiers, bank tellers, Flight attendants, Hotel concierge, receptionists, front desk workers, and greeters, just to name a few.

Why is customer service important?

Customer service is important because it is the relationship between the company, and the customer.

Customers will continue to patronize* establishments they are treated well at. People like to be treated with well and spoken to with respect. Customers, or patrons, often leave reviews of the establishments they have visited. The customer service they received is often the biggest complaint or biggest compliment they will give.

Often, establishments follow “the customer is always right” motto*. This keeps the employees focused on customer satisfaction, and providing the best possible outcome for the customer.

Difficult Customers

Sometimes, working with the public means that occasionally you will encounter people who are unhappy with their service, or are difficult to please. The best thing to do in these situations, is to remain calm, and try to offer solutions that you are able to provide, and are in your range of ability.

If the problem is not something you can fix, or seems urgent (such as an incident report, or a refund) you should always bring your manager or supervisor into the conversation. Your supervisor will have the ability to find a solution, as they have encountered things like this before.

Library Services to the Incarcerated Sheila Clark, Erica MacCreagh, 2006-08-30 Learn how to provide exemplary library service to individuals in prison or jail by applying the public library model when working with inmate populations. These authors, a jail librarian and an outreach librarian, offer a wealth of insights and ideas answering questions about facilities and equipment collection development services and programming, computers and the Internet, managing human resources including volunteers and inmate workers, budgeting and funding and advocacy within the facility and in the community. The approach is practical and down to earth with numerous examples and anecdotes to illustrate concepts. More than 2 million adults are serving time in correctional facilities and hundreds of thousands of youth are in juvenile detention centers. There are more than 1,300 prisons and jails in the United States and about a third as many juvenile detention centers. Inmates as much or more than the general population need information and library services. They represent one of the most challenging and most grateful populations you as a librarian can work with. This book is intended to aid librarians whose responsibilities include serving the incarcerated, either as full-time jail or prison librarians or as public librarians who provide outreach services to correctional facilities. It is also of interest to library school students considering careers in prison librarianship. The authors, a jail librarian and an outreach librarian, show how you can apply the public library model to inmate populations and provide exemplary library service. They offer a wealth of ideas answering questions about facilities and equipment collection development services and programming, computers and the Internet, managing human resources including volunteers and inmate workers, budgeting and funding and advocacy within the facility and in the community. The approach is practical and down to earth with numerous examples and anecdotes to illustrate ideas.
