Day Trading Exposed Joe DiChristophoro, The live markets are an intimidating and brutal place for a beginner who starts off with the wrong information. They can be a mysterious, murky and complicated place for the ill advised. By following the advice in this book and keeping it simple and taking very slow and absorbing every detail you can have the best chance for a high probability outcome as a successful market participant. Make no mistake the market can make you lose your mind, burn your soul and help you to lose all your money quickly. There is information in this book that real money investors and traders don't want you to know why you ask? It is the brand new novice retail investor and trader that the elite professionals and also the smart money in the live markets get paid from. How is this? Brand new aspiring and upcoming traders all make the same mistakes over and over again. You either GET IT in this business or you don't. The professional elite money makers in the live markets are counting on this so they can transfer the novice trader's account to theirs on a daily basis. The smart money is the Wall Street banks and institutions who are the market makers and herders of the sheeple of the herd. Who are the sheeple of the herd you might be asking? You that's who the unsuspecting beginner retail trader. Brand new retail traders have no idea they are being gamed and that they are the ones who pay those in the live market that know what they are doing. It is simply a transfer of accounts of those who have not done the proper education and training and are trying to wing it too. Those who have? If you are brand new investor or trader just getting into this business with zero knowledge or experience I invite you pay close attention to the information in this book because it is written specifically for you. If you want to make money and be consistently profitable on a daily basis this book will give you a head start to getting your money train cruising down tracks of gold right to the front door of your bank. Wall Street does not like traders to know the information in this book because brand new traders with no information who don't take the time to educate themselves properly are an endless source of revenue for the Wall Street banks and

institutions who are in the business of making money with money Most of the time it is the retail trader s money they are banking Once you are done reading this entire book you will have an idea if this business is for you or not The information in this book paints a brutal picture of the reality of the live markets for a retail sheeple of the herd trader should they not do the proper preparation to work with the best human professional traders in the world and also the best machines in the world who are programmed by code slinging geeks who make a million dollars a year to code the super computer to see you making your mistakes over and over again Ask yourself this question Do you want to be the one who is paying or do you want to be the one who GETS paid

Market Timing Solutions for Beginner Traders J. Geruto, Trading is challenging for most people especially beginners because they simply don t have information tools or confidence to become successful This book is important for beginners because it tells it like it is and gives an inside look at trading the financial markets giving you the reality on what the live market is really like the way they are really run and tells you who runs them and what you need to do as a self directed beginner to survive in them Let s face it it s a well known fact that 97% of brand new self directed investors and traders fail and lose all of their money because they cannot see the turn in price why does this happen It happens because brand new self directed traders enter into this business without the proper training and tools for them to compete against the best traders in the world and a bunch of misguided grandiose ideas of making a million dollars from trading and while you can surely make millions of dollars from trading you would need to be using hundreds of millions of dollars of capital to do so no joke As a brand new self directed trader you have no idea of the brutality and volatility that goes on in the live markets on a daily basis and that there are people in the live markets who will walk over dead bodies to get paid so make no mistake as a beginner and think you can go in the live market and beat them you can t What you can do though is properly prepare yourself to see turns in price action with a high degree of certainty Once you have completed reading this entire book you will be have an idea of what you need to do to see turns in price and have a chance at competing with the best professional traders on the planet not to mention the machines The information in this book will put you on the fast track to being able to make an unlimited income for yourself and becoming consistently profitable enough from trading the financial markets to perhaps even making a living from doing it isn t that the type of business you would like to be in
