Douyin, TikTok and China's Online Screen Industry Chunmeizi Su, 2023-09-22 TikTok has drawn attention from all over the world. Even if you have never used it before, you would still be familiar with its name. Many people have assumed that it is a US-generated platform and normally awed at its real origin: a Chinese-born and operated platform, a sister or parallel platform of Douyin. Because of the short video platform TikTok and also its dispute with the US government, people have started paying attention to what is really happening and changing in China. Two questions that hang over everyone's mind seem to be: why China? And why TikTok? This book attempted to answer the question of why short video platforms such as TikTok, the most popular made in China product of all the Chinese digital platforms, became a significant competitor on the global stage. This book explores the reasons behind the rise of short video platforms in China with a focus on the sudden and unexpected success of TikTok and its parallel platform Douyin. Beginning with the historical development of China's online screen industry, the book goes on to investigate the ICT industry, its business models, and impact on the screen industry to unfold the reasons behind the domestic popularity of Douyin. It draws on a spectrum of sources including policy documents, industry reports, and expert analysis, which is supplemented by interviews with key people in the field. It traces the changing dynamics of the Chinese online screen ecology and shows how a mixture of technological, industrial, and cultural factors contributed to the proliferation of short video platforms in China. This engaging and topical book will be ideal reading for students and scholars of media and communication studies, platform studies, and political economy studies. **WINNING**

Hoodwinked Mara Einstein, 2025-02-04 Powerhouse marketing expert narrator of Netflix's Buy Now documentary shows how today's biggest brands are using cult-like tactics to capture not just your wallet but your devotion. From viral leggings to must-have apps, Dr. Mara Einstein exposes the hidden parallels between cult manipulation and modern marketing strategies in this eye-opening investigation. Drawing from her unique background as both a former MTV marketing executive and a respected media studies professor, she reveals how companies weaponize psychology to transform casual customers into devoted followers. This groundbreaking book uncovers how social media platforms use anxiety-inducing algorithms to keep you trapped in a purchase panic cycle. The secret playbook marketers use to create brand religions around everyday products. Why even the most rational consumers fall prey to scarcity marketing and manufactured FOMO. Practical strategies to break free from manipulative digital marketing tactics. With compelling real-world examples and insights from industry insiders, Hoodwinked equips you with the knowledge to recognize and resist these sophisticated manipulation techniques. Dr. Einstein's expertise has been featured in The New York Times, Wall Street Journal, and Harvard Business Review, making her the perfect guide through the maze of modern marketing manipulation. Break free from the cult of consumerism, discover how to make mindful choices in an increasingly manipulative digital marketplace. Easy to read and such a good peek behind the curtain of for-profit companies and the ways they influence and manipulate us. Daniella Young, author of Uncultured.

Shifting the Balance Mark Schruttt, 2021-04-06 Digital transformation expert Mark Schruttt reveals how the world's top companies are using vast amounts of data to inform their decisions, disrupt industries, and get closer to their customers. Businesses that continue to rely only on intuition do so at their peril. What if you had the data you always wanted and could tell what was truly an emerging trend that would forever change your industry? Shifting the Balance analyzes the turn towards data-driven decision making and describes how best-in-class organizations use data to shift their field of vision so it is forward-looking instead of reactive. Case studies with practical examples of how leading businesses address key challenges on the path to becoming data-driven include: How companies such as Hewlett-Packard and Land O'Lakes, whose industries are defined by resellers, are connecting directly with their customers to improve satisfaction and relevancy. How data-driven decision making shaped the largest one-sided deal in sports, paying the owners of a team that did not play a game for 40 years over 800 million. How companies such as Peloton and UberEats are using data-driven decision making to disrupt and reimagine the fitness and restaurant industries. What professional sports franchises such as the Oakland A's, Philadelphia Eagles, and Toronto Maple Leafs can teach us about using data in game-changing business decisions. Shifting the Balance offers a roadmap that will enable organizations to make better business decisions that drive even better results and provides a fascinating read along the way.
