strategies for effectively reaching a multicultural audience Reviews the essentials of cognitive UI perception and the related effects of socio cultural conditioning as well as how different cultural bias and expectations can work in UX design **That Reminds Me of a Story** James E. Collins,2023-11-14 I probably watch too much news read too many newspapers magazines and blogs and have too many conversations with people about politics Often in my mind I consider myself better than politicians I may be better than some but not all of them What I notice is that I make similar mistakes to those in charge Because of this I m willing to say I m not perfect And I have the experiences to prove it Join me in a journey to tell people why I should not run for public office nor should I receive any write in votes in the next election If you do opt for writing my name in on your ballot and are uncertain how ask for assistance from the helpful people at your voting location and write in my full name James E Collins You may not change an election but maybe it will change your outlook knowing that you can vote for whom you want to not someone you are being told to vote for As an afterthought please don t tell me about ending a sentence with a preposition I tend to do that Living with Algorithms Ignacio Siles,2023-04-25 A nuanced account from a user perspective of what it s like to live in a datafied world We live in a media saturated society that increasingly transforms our experiences relations and identities into data others can analyze and monetize Algorithms are key to this process surveilling our most mundane practices and to many their control over our lives seems absolute In Living with Algorithms Ignacio Siles critically challenges this view by surveying user dynamics in the global south across three algorithmic platforms Netflix Spotify and TikTok and finds surprisingly a more balanced relationship Drawing on a wealth of empirical evidence that privileges the user over the corporate Siles examines the personal relationships that have formed between users and algorithms as Latin Americans have integrated these systems into the structures of everyday life enacted them ritually participated in public with and through them and thwarted them Sometimes users follow algorithms Siles finds and sometimes users resist them At times users do both Agency lies in the navigation of the spaces in between By analyzing what we do with algorithms rather than what algorithms do to us Living with Algorithms clarifies the debate over the future of datafication and whether we have a say in its development Concentrating on an understudied region of the global south the book provides a new perspective on the commonalities and differences among users within a global ecology of technologies
