How To Save Money Hamilton Blanza,2018-10-17 Some people I just don't save money while others have saving accounts full to the brim What is the difference? Some people save and others just don't do it How to convert from a spender who can't save to a saver who can boast of saving money is just as much a financial thing as a personality thing I'll give you a type that can save money run through the thought process that the right financial personality can bring in and you'll see but surely making money is a financial thing The brain is like any other brain and it can be trained to become good at a financial thing For example you don't lose weight by dieting if you don't learn to drive a car in the first place The key to getting started is small and let's ring a very important mindset it is not about making huge savings all the time but immediately adopting a small win in the first few days This principle is the most important thing about making huge savings Little king for that 100 dollars put in your saving account will not do the trick especially if you are not a money saver Making a habit of saving a little every day will help you build a habit which would turn from a small stream into a big river over a long time You have to train your brain to let your financial mind make a habit And like anything else in life you have to train your mind to persevere to make saving a habit and part of your financial life It's a fruitful result I'm sure with the introduction of this book you will have an idea of the core message that will be communicated to you
