published in 1987 A Social History of Nineteenth Century France argues that the social impact of the French Revolution has been greatly exaggerated and that in 1815 France was still predominantly a rural and pre industrial society The revolution introduced only very limited changes in social structures and relationships the daily lives of ordinary people remained virtually unchanged A much more decisive turning point in French history the author suggests was the period of structural change in economy and society which began in the mid nineteenth century The first part of the book looks at many changes in the economy and their effect on living standards and social environment The second part identifies the social groups which make up French society and provides detailed analyses of their lifestyles and social relationships Part Three considers the influence of such key institutions as churches schools and the state Drawing on an exceptionally wide range of primary sources this is likely to be the definitive overview of French society for many years to come and will be of interest to researchers of French history and European history **Linguistic Diversity and Discrimination** Sender Dovchin,Qian

Gong,Toni Dobinson,Maggie McAlinden,2023-12-11 This collection explores the ways in which women in academia from culturally and linguistically diverse backgrounds mediate the negotiation of linguistic discrimination and linguistic diversity in higher education using autoethnography to make visible their lived experiences The volume shows how women in academia from CaLD backgrounds particularly those living or working in the Global South draw on their multivalent complex linguistic backgrounds and cultural repertoires to cope with and manage linguistic and systemic gender discrimination In adopting authoethnography as its key methodology the book encourages these academics to write themselves beyond the conventions from which women in academia have traditionally been forced to speak and write The collection features

perspectives from women across geographic contexts sub fields and levels of experience whose stories are not often told putting at the fore their narratives lived experiences and career trajectories in mediating issues around power ideology language policy social justice teaching and learning and identity construction In so doing the book challenges the wider field to expand the borders of discussions on linguistic discrimination and higher education institutions to critically engage with these issues This book will be of interest to scholars in applied linguistics sociolinguistics and cultural studies **Real Life**

therapeutic methods can cause confusion about which might be most useful in each situation Applying theory effectively is easier said than done within the context of the powerful emotions unleashed in sessions which can result in a catastrophic atmosphere These factors can make it hard for therapists to utilise their own skills and knowledge within sessions of couple therapy The book explores how therapists and couples can unintentionally further false selves without realising how the very tools of change may counter authenticity Featuring interviews with an international range of couple therapists and case studies from the author's own experiences the key aspects of the good enough concept are elaborated Rabin shows how these ideas can strengthen therapists sense of security and safety in using their lived experience and intuition Winnicott and Good Enough Couple Therapy is the ideal book for clinicians seeking an overarching framework for working with couples or families as well as those concerned with the importance of the client helper relationship
