Robert Coover and the Generosity of the Page Stephane Vanderhaeghe, 2013-03-05
Robert Coover and the Generosity of the Page is an unconventional study of Robert Coover s work from his early masterpiece The Origin of the Brunists 1966 to the recent Noir 2010 Written in the second person it offers a self reflexive investigation into the ways in which Coover s stories often challenge the reader to resist the conventions of sense making and even literary criticism By portraying characters lost in surroundings they often fail to grasp Coover s work playfully enacts a melo drama of cognition that mirrors the reader s own desire to interpret and make sense of texts in unequivocal ways This tendency in

Coover's writing is indicative of a larger refusal of the ready-made of the once and for all or the authoritative celebrating instead in its generosity the widening of possibilities thus inevitably forcing the reader-critic to acknowledge the arbitrariness and artificiality of her responses

Internationale germanistische Bibliographie, 1982 *Encyclopedia of Contemporary Literary Theory* Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist and sometimes conflict within it. Irene Rima Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the *Encyclopedia of Contemporary Literary Theory* provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of thought and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant, complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini-bibliographies, and cross-referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.

The Fables of Odo of Cheriton Odo (of Cheriton), 1985 **Literarische Rhetorik** Heike Mayer, 2002 **Novels, Novelists, and Readers** Mary F. Rogers, 1991-07-03 Focusing on British and American novels, Rogers takes a sociological look at the business of literature, the book industry, and the experiences of novelists and readers. Viewing the novel as a vehicle of cultural meaning, the author shows how the literary canon overlooks substantial similarities among novels in favor of restrictive codes based on social as well as literary considerations. She emphasizes the kinship between the social sciences and humanities in her analysis by reinvigorating affection for the novel and also establishing its rich cultural significance.

The Company We Keep Wayne C. Booth, 1988 *Bibliography of ethical criticism* p. 505-534 Presents arguments for the relocation of ethics to the center of literature, examining periods, genres, and particular works.

Haydn and the Classical Variation Elaine Rochelle Sisman, 1993 Sisman aims to demonstrate that it was Haydn's prophetic innovations that truly created the Classical variation. Her analysis reflects both the musical thinking of the Classical period and contemporary critical interests. The book offers a revaluation of the
